## Samples:

**e-LAB:** This month we proudly feature a host of samples, REX files, and MP3 demos from the masters of the sample market, e-LAB. These guys produced the

widely acclaimed Reason SoundBank, the ReCycle! 2 sample CD and have recently put the finishing touches to the fabulous sound sets that are due to ship with Steinberg's forthcoming HALion sampler. This month they have kindly supplied us with over 350 samples and their offline website content so you can check out their unquestionably outstanding product range.

**The Samples**  
Our resident sample forgers have been hard at it in the studio, eventually emerging triumphant with a brace of live keyboard samples using Native Instruments' B4 and the MDA Piano, and a host of live drum loops and fills to ease your sample starvation for another month. Hurrah!

### This is a Future Computing CD-ROM

This disc has been thoroughly scanned and tested at all stages of production, but – as with all new software – we still recommend that you run a virus checker before use. We also recommend that you have an up-to-date backup of your hard disk before using this disc. Future Publishing cannot accept responsibility for any disruption, damage and/or loss to your data or computer system that may occur while using this CD, or the programs and data on it. Consult your network administrator before installing any software on a networked PC.

### Software problems

If you have a query about using your disc's interface or its content, please visit our readers' support website at [www.futurenet.co.uk/support/](http://www.futurenet.co.uk/support/) where you can find solutions to many common problems. If you are still experiencing difficulties, email our reader support team ([cmusic.support@futurenet.co.uk](mailto:cmusic.support@futurenet.co.uk)) for further assistance. If you would prefer to talk to a member of our reader support team, please call 01225 822743. Please note that we can only provide basic advice on using the interface, and installing software from the disc. Unfortunately we cannot give in-depth help on the

applications, or on your hardware or operating system. We are unable to support Beta software.

### Defective discs

In the unlikely event of your CD being physically damaged we'll send you a new, working version within 28 days. Send your defective disc – complete with your name, address and description of the fault – to
