The Computer Faire & BEXA Database

Welcome to the Computer Faire & BEXA 95 Database. This is a database with which to search for information on products, companies, and services at the Computer Faire & BEXA. This database is very easy to use, and was created using Microsoft Visual Basic.

Viewing the Information

Click on BROWSE on the toolbar:

[Browsing by Company](#)

Browsing By Company

Browsing by Company

To view a companys details:

Choose browse|By Company from the menu.

Double click on the first letter of the companys name, in the alphabetical list. For example to look for Workgroup Systems, double click on W. The list will expand to include all companies that begin with the letter W. Double clicking now on Workgroup Systems will bring up the company details, including: address, telephone & fax numbers and a list of all products sold by the company. If the company is exhibiting at the Computer Faire & BEXA, the hall and stand numbers will be displayed too.
