ADVANCED MEDIA, INC.

A publicly traded corporation, focusing on multimedia technologies and products

Three divisions:

- Publishing
- Interactive
- Systems

- offering complete multimedia software solutions training CD-ROMS and kiosks
- sales and services of professional level
- client based development of entertainment and multimedia and graphics hardware & software

Products

Multimedia Studio

The first complete suite of multimedia authoring titles, kiosks and training programs.

Media Master Professional

The ultimate authoring tool for producing CD-ROM and production tools

It's professional authoring software for advanced CD-ROM titles, point of sale kiosks, and advanced training applications.

COMPANY PROFILE

Information Kiosks provide consumers with instant environment. Information Kiosks can be found in information via an exciting, touch screen, stores, amusement parks, hotels, and other areas where state of the art service is important. Advanced Information Kiosks provide more capabilities than standard Information Kiosks, such as the ability to conduct marketing research, create mailing lists, incorporate MPEG-1 video and more.

Computer Based Training applications turn your PC into a training center, by incorporating all of the elements of a standard interactive multimedia presentation plus testing capabilities. With Media Master Pro., you can incorporate T/F and multiple choice questions and store the responses Interactive Presentations provide the ultimate in flexibility for presentations by allowing the presenter to interactively branch to any are of the presentation at any given time. As a result, the presenter can create on-the-fly a presentation which is most appropriate to any given With an integrated dBase compatible database engine at the heart of every Advanced Media Authoring tool, any database application can now become a multimedia database application! Real estate agents can do walkthroughs of houses

right on the desktop, doctors can keep patient Product Demos are one of the fastest growing application areas within multimedia, with interactive demonstrations of products that are distributed either on floppy disks or CD ROM. Product Demos provide an impressive means to catalogs to existing customers, or distribute CD ROM Titles are showing up everywhere, educating, entertaining, and informing us. CD ROM Titles typically incorporate all of the "Pizzazz" of multimedia, such as sound, images, video, and text, and are sold to a commercial audience. As the name implies, CD ROM Titles are distributed Point of Sale Kiosks use the power of multimedia to completely redefine the retail industry, by allowing the customer to shop right at the kiosk! Point of Sale Kiosks are much more elaborate than Information Kiosks, and therefore require Advanced CD ROM Titles have more sizzle and functionality than standard CD ROM Titles. The "Place Text" and "Place Image" features within Media Master Professional allow developers to control the graphics on any portion of the screen with exact control over the timing of events. Advanced CBT applications offer the ultimate in Computer Based Training. Such applications provide testing capabilities beyond those of a standard CBT application, allowing users to input names, answer open ended or fill in the blank questions, and store
