Dear Dad;

I hav been meening to rite you sooner, but I have been verry busy. My neuw job which is going fine, but I am putting in two much hours. They told me I would be fliping burgers, but alls I seem to be doing is cooking them. Maybe when I get more experience they will let me flip em. I am lerning a lot about runing a berger place. Today I learned why they call it fast food, cuz people want it really fast.

Today, I accidently upset the manager. I was mopping the flur, like you tatught me to do at home. You, know dump the water from the mop bucket on the flor and spread it areound. The only problem was that I didn't see the people sitting behind me, and whn I poured the water out it got there feet wet. One lady tole the manamer that he would hve to buy her a new pump. Well, I could see buying her new shoes, but why would she want a pump? The manager was very nice, though. he was mad, but just tole me to get things ship shape. I didn't see any ships, but I cleaned up the water anyways.

They are selling the bergrs where if you buy one, yu get one free. One customer got reeally mad. She had ordered 6 bergers and thought she should get trhee free! Imagine that! I told her the sale said you only get one free. So I charged her full price for the other five. She then said that she would call us the better busines beruea. Why wood she do that? I know we are a better business, but we don't sell furniture. When I telled the manager, he just, tole me to work in the bac.

But, I really like werking here because they have computers. When we take yur order, we get to push butons on the computer, it tells the cooks what to mak. But we had problems with them the otder dya. The computers kept telling the cooks to make lots of jumbo bergers, but none of the cashiers was ordering them. Just before that happened, I had opend up the keyboard and cleaned all the buttons with sopay water. Do you suppose that had anything to do with that? The manager couldn't understand it cuz he said it was a brand new machine. It looked pretty old to me.

Anyways, every day is a new challenge. Today, I get to learn about something called a shake machine. I hope it doesn't shake me to much cuz you know how I get see skick.

Well better go. Will wrtie you soon.

Your Son,

John
