

Letters to the Editors

Mac Net Journal will begin publishing letters to the editors. If you have any general questions or comments you think might be worth printing, just email them in. Also, if there is a particular program you think is worth reviewing or noting in an issue, or if you are a developer and want us to review or preview your work, please feel free to email the editors.

Subscription Information

MNJ keeps two subscription lists: one list is for people who wish to receive the entire issue of MNJ via email, one is for people who do not want a file the size of MNJ plopped in their mailbox and are just notified of when a new issue comes out.

If you wish to subscribe, please email the editors at aaron@netaxs.com and let us know which list you would like to be on. Subscriptions are free and can be terminated at any time. You can also be switched between the lists whenever necessary. We generally add/drop/switch people within 24 hours of request. If mail is returned to MNJ, we will automatically drop you from our subscription list.

Credits and Thanks

MNJ wishes to extend its thanks and gratitude to the kind fellows who maintain the Info-Mac database as well as the folks at ZiffNet/Mac who place MNJ on Eworld and Compuserve. Without the support of these two organizations, distribution of MNJ would be significantly more difficult.
