

REGISTRATION

Thank you for at least *visiting* the registration document! Now you can simply go online to:

www.photospin.com/contactus

We strongly encourage your participation in the software registration process. It's the best way we know of to record who you are and what types of products we can create that will help you the most!

By participating in the deluxe registration program you guarantee that you will always have a handy reference of the entire collection to date. You really have two options when it comes to registration. The most technologically advanced option is **THE WORLD WIDE WEB** (intended to be read with emphasis). Using this method you electronically transport yourself to PhotoSpin's product registration page (www.photospin.com/contactus) and then simply follow the online instructions. We highly recommend this method because it saves trees, postage and human handling. Plus, it's a whole lot easier for you.

The less technical method is to use the handy dandy registration form at the end of this document. It is your option to fill it out electronically or with a writing utensil (such as a pen). Plus, if you choose to mail it, you still save postage. We pick up the stamps! So, for Pete's sake – send it in. Once we receive your registration we will add you to our preferred customer list. Thanks!
