14-slot chassis, power supply, T-1 logic card, and network control card
14-slot chassis, power supply, 2 T-1 logic cards
Type I, II, and III for TIE/Trunk applications
2wire loop or ground start interfaces for station end applications
2-wire loop or ground start interfaces for 2 wire pt to pt applications
Converts 2-wire ground or loop start to 4-wire E&M.
Supports 4 analog modem connections.
Supports Switched 56 Service , SRDM compatible, requires adaptor card
Supports 56 and 64 Kbps data rates and 2 channels per card
Supports 56 and 64 Kbps data rates with 2 channels per card
Supports 56 and 64 Kbps data rates with 2 channels per card
Can hold additional power supply for redundancy or load sharing
Power transformer,cassette,power cord,user manuel
Accepts same cards as MC 600 16 slots chassis. User manuel included
Order 2 for each empty slot in the NetAccess 16 or NetAccess 6 chassis
