Description: **CodeBreaker is a game of Cunning and Logic. You must use your skills of deduction to help you break a computer generated code.**
Drag And Drop .... Sit and Think!
Give yourself hours of intresting mental challenge.

Note: **This program was written using Visual Basic 1.0 and needs the file**
Vbrun100.dll -- Visual Basic Run-Time Dynamic Link Library
And Commdlg.dll Windows 3.1 Common Dialog Dynamic Link Library
(Windows 3.0 users need this file)
Vbrun100.dll can be found on most BBS's.

Installation: **Copy the files listed above to a directory of your choice. Ex. C:\Codebrk**
Open up the File Manager move to the directory containing CodeBreaker move the mouse pointer to the file Codebrk.exe and press the left mouse button down. While holding the button down drag the file to a Program Manager Group and release the button. The CodeBreaker Icon should
show.
Click on the CodeBreaker Icon and get ready to break the secret code.

About this program:
This program is not free. The author has invest many hours in developing this game and he is asking for a small fee of $5.00 to help with computer related expenses.
