The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI USA 49442-9427, Fax 616-788-2765, or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.

Shareware

As mentioned above, BikePro is a shareware product. For those who may be not
familiar with this method of software distribution, the following explanation is
provided:

Shareware distribution gives users a chance to try software before buying it. If
you try a Shareware program and continue using it, you are expected to register.
Individual programs differ on details -- some request registration while others
require it, some specify a maximum trial period. With registration, you get
anything from the simple right to continue using the software to an updated
program with printed manual.

Copyright laws apply to both Shareware and commercial software, and the
copyright holder retains all rights, with a few specific exceptions as stated below.
Shareware authors are accomplished programmers, just like commercial authors,
and the programs are of comparable quality. (In both cases, there are good
programs and bad ones!) The main difference is in the method of
distribution. The author specifically grants the right to copy and distribute the
software, either to all and sundry or to a specific group. For example, some
authors require written permission before a commercial disk vendor may copy
their Shareware.

Shareware is a distribution method, not a type of software. You should find
software that suits your needs and pocketbook, whether it's commercial or
Shareware. The Shareware system makes fitting your needs easier, because you
can try before you buy. And because the overhead is low, prices are low also.
Shareware has the ultimate money-back guarantee -- if you don't use the
product, you don't pay for it.

BikePro License Ageement and Disclaimer

Users of BikePro must accept this disclaimer of warranty:

BikePro is supplied as is. The author disclaims all warranties, expressed or
implied, including, without limitation, the warranties of merchantability and of
fitness for any purpose. The author assumes no liability for damages, direct or
consequential, which may result from the use of BikePro.

BikePro is a "shareware program" and is provided at no charge to the user for
evaluation. Feel free to share it with your friends, but please do not give it away
altered or as part of another system. The essence of "user-supported" software
is to provide personal computer users with quality software without high prices,
and yet to provide incentive for programmers to continue to develop new
products. If you find this program useful and find that you are using BikePro and

continue to use BikePro after a reasonable trial period, you must make a registration payment of $0.00 to $20.00 to BikePro. The registration fee will license one copy for use on any one computer at any one time. You must treat this software just like a book. An example is that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it's being used at another. Just as a book cannot be read by two different persons at the same time.

Anyone distributing BikePro for any kind of remuneration must first contact BikePro at the address below for authorization. This authorization will be automatically granted to distributors recognized by the (ASP) as adhering to its guidelines for shareware distributors, and such distributors may begin offering BikePRo immediately (However BikePro must still be advised so that the distributor can be kept up-to-date with the latest version of BikePro.).

You are encouraged to pass a copy of BikePro along to your friends for evaluation. Please encourage them to register their copy if they find that they can use it. All registered users will receive a copy of the latest version of BikePro.
