Smart Address

Extensions for Word for Windows

This document allows the Word Extensions for Smart Address to be installed to your copy of Word for Windows.

Word Extensions for Smart Address enables Smart Address to be accessed quickly, via a new command on Word's **Tools** Menu. Once in Smart Address, any address can be selected and automatically inserted in your Word document at the cursors current location.

To Install the Extension double click **Install**. If at a later date you need to remove the Extensions, you should double click **Remove**.
