Press the Install Button Below to Install:

Install

A Toolbar is included, and is needed for use:
DO NOT RENAME THE TOOLBAR

Copying the toolbar can be done using Tools, Macro, Organizer:

First, click on the Toolbars tab. In the left box, make sure that this template, TIC(.doc) is showing, and in the right, make sure that the template, NORMAL(.dot), is showing. In the TIC.DOC box, highlight the Tic toolbar. Then choose copy. **Macros can also be copied in the same manner (Just click on the Macros tab).** Finally, click on Close at the bottom. Now start a new document, and if the toolbar is not in View, choose View, Toolbars, and put an X in the check box in the toolbar labeled Tic. For more help, consult your manual.

Running Tic Tac Toe:

Click the button on the toolbar, or run the macro from Tools, Macro, select the macro, WWTicTacToe, and click run.

You will be given the option to “Handicap” the computer, make a selection. Leaving the Cheat Dialog Box without any Xs in the checkbox assumes that you want no handicap. Leaving all the check boxes blank is the same as leaving all the computer’s “senses” in tact.

Once the play dialog comes up, simply click on a button you want to play. The computer will follow with its own move. Clicking “I Give Up” Ends the game.
