

# TECHNICAL SUPPORT BBS'S COMMERCIAL & SHAREWARE PHONE LIST PER 11/1994 suprt411

Total 9 pages

As the modem has advanced through the years, it is almost a necessary item for commercial & shareware companies to provide a means of technical support through a bulletin board system. This list is to help users find the support BBS's that are available to the public.

This list contains only BBS's ran by Hardware Manufacturers, Commercial Software Companies, and Shareware Software Companies. If you have any support BBS's that you would like to have listed in the next issue of the Tech Support BBS List, you can do one of the following:

- 1) Call the Digicom BBS 812-479-1310 & Answer Support Questionnaire
- 2) FidoNet Users Send Netmail to 1:2310/200 (Gary Barr)
- 3) Fax the form into (812) 474-2264
- 4) CompuServe Mail to 70007,4634
- 5) Internet Users Send Mail to gary.barr@digicom.com
- 6) By US Mail to Gary Barr, 7624 Syls Drive, Evansville, IN 47712

You must provide us with the Company name, state of operation, phone number, Modem Speed & Type, your system flags (as follows), and what products the board supports. With that, you'll be listed in the next issue! Here are the flags of which we track on the BBS Systems:

FLAGS:

D - MUST BE AUTHORIZED DEALER

R - MUST BE REGISTERED USER

S - MUST BE REGISTERED USER WITH PRODUCT SERIAL NUMBER
