SPECIAL PROMOTION FOR SYSOPS OR CATALOG DISTRIBUTORS

SYSOPS MAY EARN ENOUGH MONEY TO BUY A COMPLETELY NEW SYSTEM.
SOFTWARE CATALOG DISTRIBUTORS MAY EARN ENOUGH FOR AN ENTIRE
MAILING.

HOW?

Simply by carrying and continuing to carry this electronic magazine THE INTERACTIVE
YELLOW PAGES.

WHY:

We will be paying a 1% Bonus in the form of Auction Dollars which may be redeemed at our Auctions to be produced on Television and over the networks. If your subscribers download this program and make accumulated purchases of \$1,000,000 per year, this results in a \$10,000 bonus paid to the originating distribution outlet where the subscribers downloaded our program. These dollars are paid in Auction Dollars which may be redeemed at our Auctions where we will auction off Computer hardware, software, Household items, travel packages, TVs, Stereos, VCRs, Satellite Dishes and many other kinds of items. The more customers you have who download this program the more they will use it to make their purchases and the more you will earn as the originating service.

We will know how much to pay you because all purchasers get Auction dollars too and in that process they must tell us where they received their original program disk. At this point we can easily tally up the sales of your subscribers because we have to know how many auction dollars they have earned.

So, we hope that if you are a SYSOP or a Software Catalog Distributor that you will prominently list this program and promote it so that it will be downloaded as often as is possible. Any questions or suggestions??

Norton Desktop

SYMANTEC CORP. 800-441-7234

This may become your favorite program running under Windows. It makes Windows much easier to use and faster. From the picture above, you can see that all your programs are ICONS on one DESKTOP. No more fooling around with many different Windows to find your files. Norton Desktop also acts as a great PIM or Personal Information Manager because the new version 4.0 now has a Calendar always available. (Upper right corner above.)

The picture above is only the upper left hand corner of our screen to save space. But what you get is a complete desktop with all your icons in one easy to find place. Then, you can also access your disk drives from their icons, including CD-ROM drives for copying and pasting. You also get a great set of utilities that we find very useful for keeping your hard drive running like new. There's a diskscan utility that will correct any corrupted file problem or cross linked files. Then, you can speed up your disk with SPEEDISK which puts all your data back in contiguous blocks so the hard drive can get to things faster. And there are dozens of useful programs like this which can keep your system running like new. Even a DISK DOCTOR, on call.

But the best part is just the way it gives you everything you need all on one desktop. If you work like we do, you use several different programs every day and you have to go in and out of your E-mail program and back to word processing and publishing and then over to the spreadsheet and so forth. The best part of having everything on one desktop is that you can keep all these programs running minimized and you see their icons all at the bottom of the screen making them quickly available for use. With the new version 3.0, you also get a calendar with TODO lists and everything that most PIM programs have which is the only thing I wished for and now got as a gift from Symantec. This is the finest program to ever come out for Windows in my opinion as far as usefulness is concerned.

<<<<<< CONTEST NEWSLETTER - THE ELECTRONIC DATABASE >>>>>>>>
\$15

This publication is not found anywhere else but here. It is a careful compendium of all the major National Contests with complete rules for entering and prize description. Each month, hundreds of companies decide to promote their product by offering a contest with

a prize like a TRIP TO HAWAII FOR TWO, or A NEW CAR, or \$25,000 CASH. And everything in between. Our current month's issue has over 30 of these contests and a complete Database Manager so that you can quickly bang out a post card or a hundred to become eligible to win. THAT'S OVER 300 CONTESTS YOU CAN ENTER EACH YEAR! Many READERS have already won Millions of dollars in prizes and cash such as the ones we've mentioned above.

If you have your own favorite Database Manager, you can quickly import this ASCII file to your program and print the entries that way. Either way, if you make it a habit to enter at least 5 or 10 contests every month, you greatly increase your odds of winning one of them. I think it's worth mentioning that newsletter subscribers are usually the winners in every major contest

you hear about, because they follow the rules, and more IMPORTANT, the use this program to ENTER EVERYTHING.

THE MORE CONTESTS YOU ENTER, THE MORE YOU WILL WIN.

We know of one reader who won a trip for two to Hawaii, a new Honda Motorcycle, a year's supply of cereal, \$25,000 CASH, a brand new BMW automobile, a new wardrobe of suits and shirts and slacks, AND A VACATION CONDO IN VAIL COLORADO! All worth over

\$100,000 and all in ONE YEAR! What was his secret? He entered every contest in this newsletter and one other. He says that he spends about 1 hour per day on average printing up entry forms and mailing them, and about \$30 per month on postage, but it all seems to have been a very good investment for him and we see this all the time. So, if you want to make a nice second income without leaving the comforts of your home, this publication may be for you.

Ideal for someone with kids who get their homework done early. Make it a fun game and reward the kids when you win and you've found a new family activity that pays.

All contests are guaranteed to have a winner. And best of all there is a federal law that makes all contests open to everyone, and I'm sure you've seen these words many times before, "No purchase necessary to enter."

THE NEW AMERICAN BIBLE - ECOLOGY OF MIND
(\$15.00)

Two thousand years ago, people were inspired by the life of a great teacher to write what would later become known as 'The Bible', arguably the most important book ever published by Man. Now, the New American Bible is being compiled by people just as sincere and dedicated to the survival and betterment of

Mankind in the year 1987. It begins with the first part of the Bible, - Ecology of Mind. It was inspired by conversations between the author and 'Universal Mind' a concept new to most of us but soon to

become a household word. It is a presence found in everything we can see, hear, touch or taste. It's the

Universal Force of Consciousness that produces every word we speak, every breath we take. It's found in computers, salt, potatoes, cars, animals, even in the rocks.

If you want to know how you got here, who you are, where you are going, you will want to read this book that will someday be bigger than the original. It's all about the last days of this millennium and the beginning days of the next.

cause. With the feedback we get from the readers,
and with some of our own ideas we are going to tell

fools are likely to throw the baby out with the bath
water. WE NEED YOU to help us TELL THEM what to keep
and what to scrap! We also want them to give the
people some new freedoms. We want the ability for
all the voters to vote on the issues RIGHT ON THE

<<<< E-BIBLE - \$15.00

THE ELECTRONIC BIBLE

or

HOW TO WRITE AND CREATE 'VIRTUAL BOOKS' LIKE THESE! -By Michael Mathiesen. The nations pioneer and most knowledgeable Electronic Publisher.

This book explains everything you need to create 'VERBONS' or the kind of books that you are now reading. They are meant to be read on a computer screen and never actually make it to paper media unless the reader wants or needs to print it on his own personal printer. The implications of this new industry are varied and exciting.

Creating 'Virtual Books' is fun AND PROFITABLE. All you need is a personal computer. You can get ideas at any time and you don't know how to publish them. This book gives you step-by-step procedures for getting your ideas published almost instantly. New York publishers get thousands of manuscripts each day and they must invest between \$50,000 to \$100,000 to manufacture, distribute and promote a book. So, the odds are not great that you or I will ever interest a New York Publishing house. The good news is you don't have to deal with them any more because the personal computer industry has created a completely new market where no huge investment is required to publish your work. With Electronic publishing like the one you're reading now, the entire investment is only a few dollars. And you could earn more than any New York Publisher is going to pay you in royalties.

The Electronic Bible - actually a kit - will give you everything you need to make an electronic book including the program that puts it into the format that you see on your screen!

It's called hypertext.

All you need is an idea for something that lots of people would be interested to know, or be entertained by. That's the

first rule! The second rule is, 'Don't try to re-invent the wheel'.
Order this kit today and you will avoid all the pitfalls! Well
worth the small investment to save you a great deal of time
and money. If you're a budding author, you will not regret looking into this.

Oh yes, I should tell you that one of our electronic
books proved itself a hot-seller and now the New York
Publishers are coming to us with offers. So, this is the best wa to become published
that we know of, unless youre already a celebrity. To make a name for yourself takes years,
often decades of hard work. This book will tell you how to cut that down by a large margin.

<<< "THE PENETRATORS" Science Fiction Novel \$15.00

In Jurassic Park, Michael Chricton, entertains us
with an amazing book about a Park in which Dinosaurs
are re-constructed from their DNA molecules left behind
in Fossil form, for HumanKind to stumble upon.

In this Super Science Fiction Thriller, Michael
Mathiesen takes us on an equally thrilling journey
into another time zone, another part of the unviverse
where Humanity is experimenting with its own DNA.

Since there would be far too many objectors on Earth,
NASA commissions a mission to the nearest star with
a solar system and expected conditions of life support
for any creatures that might be genetically altered
along the way by the two Scientists on Board. Dr.
Jerry Blake and his wife Ellie.

This is a knock out punch of a Classic Sci-fi jaunt

through speculative science part of which is now known and part of which can be guessed at by very special talents like Michael Mathiesen. This book is a MUST-READ for anyone interested in the future of the Race, the Human Race and all the implications that it might have for the present.

"We are Penetrators of the Field", he said. "There is no front, back, left or right, in or out, past, present or future, only the Field. The atoms and sub-atoms that make up our minds and our bodies, live and die, travel throughout the cosmos and are programmed just as all living things are. We penetrate the Field and become more than just the sum of our parts when we are aware of these facts and all others that are part of the act of Creation. But not until."

<<<<< HOW TO GET OFF THE INCOME TAX TREADMILL
>>>>>>

\$99.00

The IRS has us all working until May 5th of each year just to pay our tax bill. Yet, at no time are we given the chance to vote on tax issues. This is called Taxation without Representation, and this is one of

the main reasons that the break from England was justified by the founding fathers. "Therefore, it is not only just, but it is the right of every citizen to avoid paying taxes using every legal means at his disposal." (THE WORDS OF U.S. SUPREME COURT JUSTICE OLIVER WENDALL HOLMES.)

This book teaches you how to get your income and your property completely sheltered and exempt from

income tax by setting up a TRUST. This method is the same one that some of the wealthiest people in America use to avoid the tax man. The authors have discovered all the legal methods of using this trust to never have to pay income taxes again. It is foolproof and it is legal. Best of all, it will save the average tax-payer thousands of dollars each year. Work for yourself and your family. Give some of what you save to your favorite

charity. This is one of the only places in the world you can find this information. Don't delay. If you ever wondered why you were so easily "volunteering" to give some of your hard-earned money to projects like Welfare, Foreign Aid, Viet Nam, N.A.F.T.A., Watergate, Iran/Contra, and all the waste, fraud and abuse, then this book should help you reverse your financing of all this nonsense.

<<<< THE ROADMAP TO THE INFORMATION SUPERHIGHWAY >> \$15

Written by the publishing pioneer on the Information SuperHighway, founder of the ELECTRONIC PUBLISHERS ASSOCIATION, Michael Mathiesen, this book is a Bible for anyone wanting to learn how to get the most from the information superhighway in order to promote a product or service.

The old ways of doing things are similar to the horse and buggy days. They're gone forever, a bit of nostalgia and Americana. The way of the future is to use the new technology to invent, promote, develop, test, market and advertise one's skills. Laws have to change. Intellectual property rights such as Copyright and Trademark are changing. Everything is changing, but if you're a reader of this book, you can keep ahead of everything to come over the next decade. Don't let your company become the next Packard. Learn how to adapt and grow your business on the Information Superhighway now under construction. You might even be able to cash in on some of the lucrative contracts to help build it.

Networking

ONE OF THE BEST Network programs we can tell you about is coming from NETCOM in April of 1994. It will be a Windows program that will tie anyone to the InterNet in a simple, Windows Friendly kind of way. We proudly hail this major breakthrough in InterNet Communications and we want you to call NETCOM if you are considering getting an InterNet account. NETCOM can be reached at 800-501-8649. Tell them you saw this little blurb in InterActive Yellow Pages and that we speak highly of them. We find their fees to be very inexpensive and with the new Windows Interface, it may prove to be the best InterNet connection there is.

We'll get to work on it right away and someone will call you to confirm all the information. It generally takes a week or two from the time we get your letter to set it all up.

There is no fee to begin this savings plan. And if you would like to make money with this service, you can sell your friends on the service and earn an easy 5% of their long distance bill. Set up a couple dozen businesses and you could be earning \$5,000 per month from their Long Distance bill through ISI. Were looking for distributors.

If you are part of a large corporation, an association or a Church or College or University, you should get on this right away, because this is an opportunity to retire just on your signing up a large organization. If your organization is paying 10,000 per month in Long Distance, for example, you could be earning \$500 per month, JUST FOR SIGNING THEM UP. See, what I mean? Get two or more large organizations and you could be set for life. And after the set-up, you just collect the checks sent to you automatically by ISI. So, dont delay. You have to be a customer, before you can represent ISI. Sign your own phones up now and then go to town signing up people you know. They will get the lowest rates in the nation, and you get a nice COMMISSION EVERY MONTH FOR INTRODUCING BUYER TO SELLER. Its the best way to make money, I know.

THIS LIST OF CATEGORIES IS FAR FROM COMPLETE!

What you see on our CONTENTS page is only a preliminary set of categories. We will be adding more and more as we gain advertisers and groups of advertisers. If you are an advertiser and you dont see your BUSINESS CATEGORY, please call us and we will add it to our INTER-ACTIVE PROGRAM. Remember that the first advertisers in here will have the best response because they will have fewer competitors in their category, so people will find you easier and more frequently. As we grow, the number of listings will grow in number, but you will always have a response more than large enough to justify the cost of the ad. IN FACT, WE GUARANTEE THAT.

THE WORLDS FIRST TOTALLY USELESS 900#S

Well save you all that money and give you real information on these two 900#s that you can use. The first one is for people who need a little cheering up. We think people call these 900#s because they are a bit bored and are looking for a little entertainment to take them out of their hum-drum lives. Windows Hot Tip of the Month

Every Windows user knows that this graphical mouse-driven interface is far superior to DOS and its non-graphical boring C: Prompt commands. But even Windows is not perfect and there are so many different kinds of computers out there with different memory management schemes its no wonder that sometimes Windows can go very very wrong.

This months HOT TIP will show you how to avoid the most common and the most frustrating problem configuring Windows in a 386 or 486 computer. First of all you have to know how to EDIT your CONFIG.SYS & AUTOEXEC.BAT & sometimes your WIN.INI OR EVEN YOUR SYSTEM.INI FILE.

An often overlooked problem with Windows is its penchant for twisting files and misfiling pieces of them and allowing DOS to scatter them all over the hard drive making for a slower and slower running hard drive. The problem is not so much with Windows but with the applications that we all have to use daily. I believe my fax program has a glitch somewhere that causes files to get crossed up. But it could be any of the several other programs I use every day. Many tech support people have told me that the problem I was experiencing was due to my Norton Desktop, but never has this proven to be true. It seems to be a common suspicion of tech support people and a way to get people off the phone earlier.

The fault generally lies in the fact that many programs will mix one of their files with another one thats residing up in memory and when it gets saved it gets combined with this other data. This tends to make Windows run slower and you start to experience other problems because you keep accessing these files and theyre not virgin and clean any longer.

The solution to Windows Weirdness, as I call it, is to use CHKDSK C:/F command from Dos. You have to exit Windows completely to get this to run. If you have Norton Utilities, its much easier to use NDD/Complete which un-crosses your cross-linked files. (Trust me you have them, whether you know it or not.) Then, use a disk optimizer to put all the files back in contiguous placement on the disk. This not only solves most of my Windows Weirdness problems, but also makes it easier for your read/write heads on your hard disk to find all of your file at once, saving time, making Windows work faster and prolonging the life of your hard disk because it doesnt need to work as hard. I swear by this system because I have a very large hard drive and I optimize and compress my disk quite often and I have not had a hard disk reliability problem ever since I started taking these steps above.

The modern computer is great, but like a car or any other kind of machine, there are certain maintenance kinds of things you need to do to keep it running smoothly. In the case of your car, you have to hire a mechanic or bring it back to the dealer for these kinds of things. But in the case of your computer, all you need is a little knowledge and/or a good support program like Norton Utilities. I cant speak highly enough of Norton Utilities. They have saved me from many serious problems. Once, I thought I would have to format my entire hard drive because it seemed very dead to me, but Norton brought it back to life and I didnt lose a byte of information. In my opinion to have a PC without owning the latest Norton Utilities program for Windows is like owning a car without keeping a spare tire in the trunk.

One small note about Norton Desktop, mentioned above. While the tech support people are ususally wrong in telling you that Norton Desktop is the cause of your problem, there is a quirk I have found with this desktop that probably relates to all of them. When youre installing a new program to Windows. You may find that it does not install properly because you have Norton Desktop on top of Windows and the program is not intelligent enough to realize this. So, things dont work as expected. In this case, unload Norton Desktop by changing a line in your WIN.INI File. Change the line in the first paragraph of code, SHELL = NDW.EXE TO SHELL=PROGMAN.EXE. The best way to do this is to simply place a semicolon in front of the word SHELL OR ;SHELL. Then type in the PROGMAN line beneath this line. Then when its time to change back you simply move the semicolon from the Progman line to the NDW line. What you are doing is telling Windows to use its native Program Manager as the Shell instead of Norton Desktop and THEN, YOU CAN INSTALL YOUR NEW PROGRAM, and it will probably work fine under Windows. Then, when its working fine, go back to the WIN.INI file and change it back to SHELL = NDW.EXE by erasing the semicolon from the front of this line of code. Thats all there is to it and youll avoid a great deal of trouble when installing a new program under Windows.

I find that I install a lot of different things and when I dont like them anymore, I still have their device drivers clogging up my Config.sys and Autoexec.bat files and sooner or later, I figure out which ones they are and get rid of them. You need to do this maintenance everytime you change hardware. And there are software programs that will UNINSTALL for you by removing all unwanted drivers for you. See [SOFTWARE, UTILITIES, PRODUCTIVITY TOOLS](#) for a list.

In next months VERSION OF THIS MAGAZINE we will go further into the magical mystical world of Windows and how to fix problems caused by bad memory addressing.

HIGH MEMORY

The memory between the 640KB base memory and the 1 MB - 3MB you have in EXTENDED MEMORY. It seems like there should be 384 KB of memory available in there, but there isn't because most of it is reserved by the INTEL architecture for monitor drivers, network drivers, even if you don't use them.

OUALIE BEACH - NEVIS, WEST INDIES

809-469-9735 Voice

809-469-9176 Fax

Our family owned and operated beachfront hotel is located on the beautiful, unspoiled, tropical island of Nevis. We have 22 West Indian style gingerbread cottages situated less than 25 feet from the beach. All accommodations have screened porch facing the picture perfect Caribbean sunset over the water. Air conditioning (deluxe rooms), and cable (deluxe rooms). The restaurant serves both Caribbean and continental cuisine and is famous for the daily seafood specials, based on the catch of the day. A local string band plays Nevisian and Reggae music every Saturday night in our Beach Bar. The only dive ship on the island is located on our resort premises, which allows for easy accessibility to SCUBA and snorkeling. Watersports including deep sea fishing, sailing, windsurfing and waterskiing are also readily available at Oualie Beach. Other activities can be easily arranged by our efficient, 24 hr. reception staff include island tours, horseback riding, rain forest hikes, historic walks, golf, tennis, and car rentals. Oualie Beach offers a great value, where guests can enjoy the casual, restful, friendly Caribbean atmosphere.

Wailea Oceanfront Hotel, Wailea/Kihei, Mauiut its still a slice of Paradise and always will be because in relation to the rest of the world, its still slow and warm and tropical and friendly and clean. As soon as you get off the plane, you know youre in a very special place because it still smells like beautiful exotic flowers everywhere. If youve never been, you owe it to yourself to visit at least once before you pass from this life. Hawaii is the way God intended for us all to live, but because of climatic and other conditions, it didnt quite turn out that way.

Below is a list of places the beckon to the traveler who wants to feel really special while on vacation.

HYATT REGENCY - WAIKALOA

This is the best if you have young children along. Theres so much for them to do on the 800 acre property, you may never get them to come home. Boating, Snorkeling, Daycamp, Watersports etc.

800-233-1234

KIHEI KAI CONDOMINIUM

Nice beach for children, near to farmers market.

1-800-735-2357

KOKEE LODGE

(This is for the hikers, not a beach resort. But spectacular scenery.)

808-335-6061

KONA VILLAGE RESORT

This is my personal favorite. You're sure to be sharing the beach with a celebrity too.

800-533-5351.

KUAI LAGOONS

Very Romantic, largest man-made lagoon in Hawaii.

800-228-3000

WESTIN KAAPALI

Great room with a view, wonderful private beach, plenty of activities..

Norton Desktop

SYMANTEC CORP. 800-441-7234

This may become your favorite program running under Windows. It makes Windows much easier to use and faster. From the picture above, you can see that all your programs are ICONS on one DESKTOP. No more fooling around with many different Windows to find your files. Norton Desktop also acts as a great PIM or Personal Information Manager because the new version 4.0 now has a Calendar always available. (Upper right corner above.)

The picture above is only the upper left hand corner of our screen to save space. But what you get is a complete desktop with all your icons in one easy to find place. Then, you can also access your disk drives from their icons, including CD-ROM drives for copying and pasting. You also get a great set of utilities that we find very useful for keeping your hard drive running like new. There's a diskscan utility that will correct any corrupted file problem or cross linked files. Then, you can speed up your disk with SPEEDISK which puts all your data back in contiguous blocks so the hard drive can get to things faster. And there are dozens of useful programs like this which can keep your system running like new. Even a DISK DOCTOR, on call.

But the best part is just the way it gives you everything you need all on one desktop. If you work like we do, you use several different programs every day and you have to go in and out of your E-mail program and back to word processing and publishing and then over to the spreadsheet and so forth. The best part of having everything on one desktop is that you can keep all these programs running minimized and you see their icons all at the bottom of the screen making them quickly available for use. With the new version 3.0, you also get a calendar with TODO lists and everything that most PIM programs have which is the only thing I wished for and now got as a gift from Symantec. This is the finest program to ever come out for Windows in my opinion as far as usefulness is concerned.

We use the finest quality ingredients, the latest scientific knowledge and the clinical needs of physicians across the country to design our formulas.

We provide our services and products primarily to health care professionals. We also produce a retail line and a line of products designed specifically for pharmacies.

NF Formulas was the first to develop **Echinacea Vitamin C** and its liquid and chewable versions. We have created a wide range of products including single nutrients such as **Beta Carotene, Vitamin E**, and our **Calcium 1000** combining 8 different mineral forms of calcium to increase bioavailability.

Our omega fatty acid products include **MAX EPA** (encapsulated concentrated fish oils), unrefined, virgin **Flax Seed Oil**, which is the best vegetable source of Omega 3 Fatty Acids, and encapsulated **Borage and Flax** which is rich in GLA's, Omega 3 and Omega 6 Fatty Acids.

We have a selection of daily multiple vitamin mineral formulas designed for maximum absorbability and bioavailability, using thoroughly researched state-of-the-art ingredients. MOTHERBOARDS & CONTROLLERS**

1-800-998-4359

THESE MOTHERBOARDS VARY IN MAKE AND MODEL. WE GIVE THE BASIC FEATURES HERE THAT YOUR MOTHERBOARD IS GUARANTEED TO CONTAIN. However, the best prices are available here on these Generic Brand Boards because they are manufactured in limited quantities and then improved to meet the latest introductions of new standards, new chips, etc. and then a newer Generic Brand is brought to market with these improved features. These are the best buy for the buck because of the ability of these manufacturers to build boards to the latest specs. If you specify a brand name for your motherboards, you will pay more, but the quality and compatibility will not be as high as these boards because they are made in very large numbers to protect the brand name and are not updated as often as Generic brand motherboards.

This way, you will know that a large number of people will be able to find your continuously running listing, advertisement, demonstrations, etc. that we place on the Internet for you and all at ONE LOW PRICE.

Multi-Level Marketing Opportunities

Everyone knows that you can become WEALTHY if you get in on the ground floor of a Multi-Level Marketing Opportunity.

Why does this happen? Because if you get even one person to come into your organization, chances are that they will get others to come in under them. This DOWNLINE can build until you suddenly have quite a large organization selling products in your downline from which you can make up to \$9,000 per month, per leg. This means that everyone you sponsor under you have the ability to make you \$9,000 per month. If you sponsor 10 people, this adds up to \$90,000 per month. It can happen within just a few months.

IT WILL HAPPEN TO YOU IF YOU PAY ATTENTION TO THIS OPPORTUNITY IN NETWORK MARKETING.

All you need is the desire to make lots of money and a few friends, relatives, or business associates to talk to. That's all you need and about \$500 for start-up inventory. There is no other business that can pay you this much for so little invested, that I know of and I've tried them all.

Now, I'll tell you why this is the best of all Multi-Level Marketing products.

The base product is beautiful, high-quality jewelry. It's not vitamins, soap, food, or phone service. It's something that is a luxury item for most of us, but the beauty of it is that when you find a customer, you make hundreds of dollars in commissions. All other Multi-Level Marketing plans that I know of, including AMWAY, Herbalife, Etc., only pay back a few dollars and the first few months of hard work returns for most people, only a few dollars profit, that's why most of them drop out of the other MLMs.

In our case, your first check is going to be an average of \$250 profit. With just a little work, you can be earning \$2,000 the first month! Within 3 months, you can be earning \$6,000 per month.

This is not impossible. Within a year, you can be earning over one million dollars in pure, taxable income. Imagine, being able to report to Uncle Sam that you earned over 1 Million dollars for the year. You'd better save some of it because Uncle will want his cut. But if you're making a million in one year, you're probably going to double that in the second year.

So, if you want to make tons of money in multi-level marketing, and get in on a ground floor organization which means everyone you meet is a potential downline for you, then, please send email to lite@ix.netcom.com. Leave your mailing address and I will send you an info packet that will knock your socks off and get you going into the most lucrative career of your life.

You have to like talking to people. Preferably you're a female who likes to wear nice jewelry, or a man who knows a woman, your wife, your mother, your aunt, who likes to wear fine jewelry. I say this because, while your mother, your wife, or you are wearing this fine jewelry, people will compliment you and ask where you got it. BINGO, there's a new customer or downline who

will find more customers for you.

Isn't that easy? It truly is and this is the fastest growing MLM in the world because it is only a few years old. The company is established with perfect credit and references. This is no fly-by-night thing. If you do your job, they pay you millions in commissions and they will even buy you a car of your choice. The more expensive the better. You can be at this level within a few months. So, please email me, Mike Mathiesen, at lite@ix.netcom.com or send snail mail to me at P.O. Box 7885, Santa Cruz, CA 95061

The reason I don't want personal phone calls? I'm too busy enjoying life and all I want is serious people who will be able to make a decision and get going to keep my income growing and growing. Don't worry I'll teach you the secret of marketing yourself, if you haven't already guessed. You do it on the Internet. That's how I made a million!

REMEMBER, AS LONG AS THERE IS LOVE, THERE WILL BE JEWELRY!

HOME MORTGAGE PRODUCTS

Ever wondered if you have been over charged on your adjustable rate Mortgage?

Our company will review your mortgage at NO COST. We have found that 49.7% of all ARM mortgage holders are being over charged. This is a perfect way to find out what is really going on. There are NO FEES up front. This is NOT A SCAM!!! We have developed a software program that can find any mistakes in your ARM mortgage. We handle all the paperwork. It is totally Risk Free. Find out now before you've spent thousands of dollars you might of saved.

For more information E-mail Nedfred@com.aol. Please leave Name and telephone Number.

Do to the overwhelming internet response, Serious inquiries Only! This is your opportunity to have your Adjustable Rate Mortgages checked at NO COST Upfront!

Why are so many ARMs wrong? In the first place, these loans are extremely complicated. Index values change (hourly in some cases). Determining the right change dates of new interest rates can be difficult. Values get rounded off incorrecdy. In some cases, the interest rates changed are higher than the cap allows. And that's only the beginning!

To make matters worse, the task of servicing these loans often falls to the most poorly paid employees of the bank - clerks who lack the training necessary to perform in a competent manner.

But the most serious source of problems with ARMs results from the sale of loans by banks, S&Ls and mortgage brokers to other banks, the government,(Fannie Mae) and investors. As data is transferred between computers, it s common for overcharges to crop up.

Even a small error can cause a huge overcharge. In the analysis of 11,300 Adjustable Rate Mortgages, overcharges were found on 47.5% of them. The average overcharge was found to be \$1,588. On home equity loans the percentages are much higher with a whopping 74.7% found to be in error at an average of \$1,511. Overcharges that are not corrected continue to compound monthly with each payment at the rate being charged on the note. To understand how quickly even small errors can skyrocket, consider this example: On a \$65,000 loan at 10%, the yearly rate would only have to be off 0.462% (less than one half of one percent) to result in an ouercharge of \$25 each month. If not corrected, the total overcharges in just 3 years would amount to \$1,053.25.

Are you being overcharged? Here's How to fight back with ARI.

At A.R.M. Recovery, Inc. (ARI), we will analyze your 6-loan documents and payment records using ARMtech, our copyrighted computer software program developed exclusively for us by

former Federal Savings and Loan Insurance Corporation analyst, John Geddes, whom WE ARE AFFILIATED. Mr. Geddes has appeared on every major television network, newspaper, and radio network in America exposing this problem he is credited with uncovering while still employed with the FSLIC. In addition, Mr. Geddes has testified before congress extensively on this issue and the Federal Trade Commission is officially on record as concurring with his findings. after spawning their own independent investigation.

With your written authorization, we'll obtain necessary papers from your bank. We will advise you of any errors and provide the bank with the necessary documentation to recover the overcharges.

Our Fee is based upon results.

For our services, ARI receives 50% of the past recovery amount. All future savings derived from our services is yours to keep with our compliments in addition to 50% of the past recovery going directly to you. IF WE DO NOT OBTAIN ARECOVERY, YOU DO NOT PAY US A CENT!

NOTE: If you have paid off your adjustable rate mortgage or home equity loan, you may still recover the overcharges.

What can you lose?

When ARI analyzes your ARM payments, you will either (1) recover money due to you, or (2) you'll enjoy the peace of mind that comes with knowing you are not being overcharged. And best of all, you risk NOTHING with our guarantee of "no recovery, no fee.

LOTTO CLUBS OF AMERICA INC. invites you to participate in the Florida Lottery through membership in one our lotto clubs. Each club receives 100 chances at the weekly jackpot. You can join a 20 member club for just \$7.50 per week and receive 5% of the winnings or join a 10 member club for just \$15 per week and receive 10% of the winnings. We also offer a special rate of \$12.50 per week for those who join as a group of 10. For more information call any time 1-800-522-5181.

My name is Jim Campbell, President of LCA, Inc After hitting the Michigan Lottery in a Club on September 9, 1989, (copy of check on last page), I tried to get into other clubs. I found clubs with 100 members or more, or clubs with 25 members, but they wanted \$200.00 for 4% of the winnings and only bought 1200 numbers. After finding no clubs of any value, I spent two years researching and thousands of dollars in attorney's fees to start Lotto Clubs of America. LCA, Inc. has been in business since October 1992 and has members all over the country.

I have set LCA, Inc. up the easiest way I could, by law. If you decide to try us out, you will get 100 chances per week in the Florida 6/49 drawing every Saturday night. I picked the Florida lottery because they start out with a \$7 million jackpot and only have one drawing a week.

LCA, Inc. offers two options: (1) the ten member club, \$15.00 per week for 10% of the winnings, or (2) the twenty member club, \$7.50 per week for 5% of the winnings. All tickets are purchased for the whole month and all money is collected on a monthly basis. There is also a one-time registration fee of \$10.00 to register you in the state of Florida as a club. We will mail

or fax each member a copy of their 100 numbers for the month. You will also receive a copy of the winning numbers and how much your club won every week. At the end of the month, LCA, Inc. will send a check for your share of the winnings. If the amount won for the month is less than \$50.00 for ten member clubs and \$100.00 for twenty member clubs, the balance will be carried over to the next month.

As a member, you will need to have a check or money order to us by the 15th of the previous month you want to be in. After you join, an invoice will be sent to you in plenty of time to meet the deadline. There are four Saturdays in the month, you will need to send \$60.00 or \$30.00 for that month; if there are five Saturdays, you will need to send \$75.00 or \$37.50 for the month. If your check or money order is not to us by the 15th, you will not be in the next month's club. LCA, Inc. will not take credit cards for two reasons: (1) to keep our costs down, and (2) we feel that if you do not have the cash to play lotter-
tes, you shouldn't be playing.

Everybody needs a dream. Winning \$7 or \$15 or \$25 million is a long-shot dream-but it does happen. Winning a lottery and getting \$75,000 a year for twenty years is a great feeling to have. I started this company because I know lotteries can be hit. I cannot promise you will hit the lottery, but can promise you 100 chances a week to hit one. So fill out the registration form, send your check or money order for \$10.00 and whatever month you want to start in, and if you're not satisfied with our service, we will refund your \$10.00 registration fee. Thank you and GOOD LUCK in your lottery endeavors.

Jim Campbell
President, LCA, INC.

Mail Order

\$175.00 IS YOURS ABSOLUTELY FREE!!!..

MOST VALUED FRIEND,

THIS IS A VERY PERSONAL LETTER, I ASK ONLY ONE THING,
PLEASE GIVE ME THE COURTESY OF READING IT. IT WILL ONLY TAKE YOU A
COUPLE OF MINUTES, IF YOU DO READ IT, WE
WILL BOTH WIN, IF YOU DON'T, WE BOTH LOSE!!!!

....Mail order has created many millionaires,
and guess what? You're next!!!! Lets get right down to business,
how can I help you get rich? I certainly hope that's why you asked
for this information, because you can get rich very quickly. (Not
Overnight-thats hog wash) You can sell valuable money making
information through the mail for super big profits. Let me tell
you exactly what I do. But more importantly, what you can do too!!
There's \$\$millions of dollars in the classifieds\$\$, You see what I
do is run tiny little inexpensive ads, just like the one you answered.

These ads are run in the classified sections of hundreds of
newspapers across the country. Let's say, for example, you run a
tiny little ad that costs you \$25.00 for one month. No that's not
a mistake. I mean \$25.00 for one whole month of advertising. Let's
also say this very same ad makes you a profit of just \$75.00 for the
same month.

Twelve years ago when I first started in the mail order business,
my reaction was much the same as yours. I said "BIG DEAL" how can
I get rich on just a \$75.00 profit for the whole month?
YOU JUST HIT THE BIGGEST LOTTERY EVER!!!!....

And this lottery never stops paying you big money. Let me tell you
why!! Did you know there are over 3,000 newspapers throughout the
United States? Now take that \$75.00 profit you made in one month,
on just one newspaper, and multiply it by 3000 newspapers, and that's
over \$200.000 income in just one month!!!!

Just think if you ran ads in only 200 newspapers that's \$15,000 per month. Sound like a
dream? You bet it is, a dream come true for all those who know the secret. When you are finished
reading you will also know the secret!!

Let's talk about the ads you will be running in the newspapers. First of all, and most
importantly, you don't have to be a master copy writer and

know how to write big money making ads. Why? Because I will give you my top ten mail order ads, the very same ads I run all over the country. The same ads that make money 7 days a week, 365 days a year, my top ten. Indeed the best of the best!!! These ads will make you money for the rest your life. YOUR SHIP JUST CAME IN!!!IT GETS BETTER!!!....

Where do you run these ads? Not to worry, I will give you over 300 hand picked newspapers, all proven to pull in the big mail order profits. I will show you how to set up your own advertising agency which won't cost you even one penny, and you will receive a 15% discount from all the newspapers that offer it. I will even show you how to get thousands of dollars per year in free advertising, the free advertising alone will make you rich!!!!

IT EVEN GETS BETTER!!!....What I have done is written a book (ONE OF MANY). This is a no nonsense, step by step book with over ten years experience in it. Let me say right now that my book is different than anyone else's in the world. My book, I believe for the very first time, will actually give you everything you need to start making money right now, today!!!THE BEST HAS YET TO COME!!!....

I'm a published author and have written many books on the subject of mail order, and have many more great books available, in what I call my mail order schoolhouse. (SCHOOLHOUSE ENCLOSED WITH THIS LETTER). You have the opportunity to offer for sale each and every book and every report in the schoolhouse and make a whopping 50% profit without ever paying one penny up front. In fact you pay nothing at all until you have made your money and banked your profits!!!!

O.K. HERE'S HOW IT WORKS!!!!....When you run my ads in the newspapers, and people request information from you about your opportunity, you will send them your sales package. (I WILL PROVIDE YOU WITH MASTER COPIES OF ALL YOUR SALES PACKAGE MATERIALS.) When they receive your package and study it over, let's say, for example, they order \$500 worth of books from you. At that time you keep \$250 and send my company \$250, along with your customer's names and addresses, and the names of the books they ordered. We will then package the orders and ship them to your customers. We will also put your name and address on their return labels so when your customers receive their orders they will believe they came directly from you!!!!

REMEMBER YOU PAY NOTHING AT ALL, UNTIL YOU MAKE YOUR MONEY, AND BANK YOUR PROFITS!!!!THIS IS THE CLINCHER -- I HAVE SAVED THE BEST FOR LAST!!!

I WILL GIVE YOU ONE YEAR FREE COUNSELING, I WILL WORK WITH YOU PERSONALLY!!!...

I know of no other successful person in This business that will offer free counseling on a daily basis. I will work with you, each step of your journey, in order to ensure your success. If there were only one ingredient that would determine the difference between success and failure, it would be personal guidance. Without it your chances of success are, at best, slim. Indeed, the vast majority of people who will try to succeed in the mail order business will know only failure. Why? They will do it wrong--period!!!!

IF YOU ARE ONE OF THE SERIOUS PEOPLE IN LIFE WHO TRULY DESIRES TO BECOME RICH, YOU NOW HAVE NO EXCUSE NOT TO!! YOU GET EVERYTHING MENTIONED IN THIS LETTER INCLUDING:
