Tuning: Standard Tuning (EADGBE)

Intro/Chorus/Verse:

You must figure out how to play each note, isn't so hard when you've listen to the song a few times.In the verse try to use a little palm mute for each note...it's really cool.

```
E|--------------------|
B|--------------------|
G|-------7-7----------|
D|--7-7--7-7--5-5--2-2-|
A|--7-7--5-5--5-5--2-2-|
E|--5-5-------3-3--0-0-|
```

Here goes an example:
-(VERSE)
A D G E
This is a public service announcement, this is only a test....etc.-

-(CHORUS)
A D G E
Warning, live without warning.....etc.-

Now the bass arranged for guitar. You may play it in different positions, but here are explained the two easiest ways to make it. Cool!!

```
E|------------------------------------------------------------|
B|------------------------------------------------------------|
G|------------------------------------------------------------|
D|---------0-0-2-4-5-5-4-2-0-0---------------------------------|
A|-0-0-2-4--------------------4-2--back to the first note-----|
B|------------------------------------------------------------|
```

```
E|------------------------------------------------------------|
B|------------------------------------------------------------|
G|------------------------------------------------------------|
D|----------------5-5-----------------------------------------|
A|---------5-5-7-9-----9-7-5-5---------------------------------|
B|-5-5-7-9--------------------9-7--back to the first note-----|
```

Bass Solo:

I repeat that there's a lot of ways to play this riffs, you must figure out other ones if you don't like these. =)

```
E|------------------------|
B|------------------------|
G|------------------------|
D|------------------------|
A|------------------------|
B|-5-10-5-3-0-5-5-10-5-3-0-|
```

```
E|------------------------|
B|------------------------|
```

```
G|-----------------------|
D|-----------------------|
A|---4-----------4---------|
B|-5---5-3-0-5-5---5-3-0---|
```

And that's the all song...It's really easy to play, and the bass isn't so hard like
it looks for some people...send corrections, commentaries and money to
