Product Information: InContext Work Environment Manager v1.10 (1/31/93)

Header Information

VI Version: 100
Header Type: 1
Prep Date: 1/4/94

Product Information

Product Type: Software
Product Name: InContext
Name Extension: Work Environment Manager
Version: 1.10
Date: 1/31/93
Version Reason: Major new release, with many feature enhancements
Filename Prefix: INCXT11
Number of Parts: 2
This Part: INCXT11A
List of Parts: INCXT11A INCXT11B
CompuServe Parts: INCXTA INCXTB
Screenshot Types: PCX CGM FLM
Replaced: INCX102A INCX102B

Description 1:
InContext Work Environment Manager V1.10 (1 of 2) <ASP>

Description 2:
InContext Work Environment Manager V1.10. Very powerful object-oriented DOS shell and much more. <ASP>

Description 3: InContext(TM) V1.10 is a complete Work Environment Manager for expert PC users. This program automates more aspects of the PC user's work than any other product. Much more than a DOS shell. <ASP>

Description 4: InContext(TM) Work Environment Manager V1.10 (1 of 2) <ASP>. Complete Work Environment Manager for expert PC users. Automates more Aspects of the PC user's work than any other product. Designed by a PhD ergonomist, it is based on fundamental principles of how people actually work. Much more than a DOS shell. NEW VERSION 1.10 has Gantt charts, multi-file tagging, 4DOS long descriptions, PKZIP 2.04 support, *many* new features.

Description 5:
InContext(TM) V1.10 is a complete Work Environment Manager for expert PC users. This program automates more aspects of the PC user's work than any other product. Designed by a PhD ergonomist, InContext is based on fundamental principles of how people actually work. On top of a unique, object-oriented DOS shell, InContext provides well-integrated task/project planning and calendar management. ASP shareware.

NEW VERSION 1.10 now has Gantt charts, multiple-file tagging, 4DOS-compatible extended file descriptions, PKZIP 2.04c support, *many* new features.

Description 6:

InContext(TM) V1.10 is a complete Work Environment Manager for expert PC users. This program automates more aspects of the PC user's work than any other product. Designed by a PhD ergonomist, InContext is based on fundamental principles of how people actually work. It allows you to organize your computer around your work habits, rather than the other way around.

On top of a unique, object-oriented DOS shell, InContext provides well-integrated task/project planning and calendar management. Tasks can be associated with directories, appropriate materials, and procedures. An extensive procedure language and smart application launching make InContext a powerful platform from which to work. Fast internal editor/viewer and archive viewers for ARC/ARJ/LZH/PAK/ZIP are among an extensive array of features that round out this complete Work Environment Manager. ASP shareware.

NEW VERSION 1.10 now has Gantt charts, multiple-file tagging, 4DOS-compatible extended file descriptions, PKZIP 2.04c support, *many* new features.

Categories: Work environment managers
Personal information managers (PIMs)
Calendars
