

MultiMedia Trivia 1.0 Things to know

V.1.0 (03-20-94)

VBRUN300.DLL (not included) is required to execute the setup and the game.

The game Requires a VGA Card, Mouse, and Microsoft Windows 3.1. A sound card is optional.

SHARE.EXE

In order for MultiMedia Trivia to work properly, the dos file SHARE.EXE must be loaded. Most Windows 3.1 installations already have SHARE.EXE loaded as it is needed to run Microsoft Access and other windows applications. When you try loading MultiMedia Trivia it will give you an error if SHARE has not been loaded. You must load SHARE PRIOR to loading windows. This can be done 1 of 2 ways.

(1) Exit and close windows, and at the dos C:\ prompt type: C:\DOS\SHARE

(2) Edit your AUTOEXEC.BAT so SHARE.EXE loads before windows does everytime you boot your computer.

TECHNICAL SUPPORT

You can reach the Ashbury MultiMedia Group at (415) 681-8403. On America Online, please address any Email to: PorterVenn.

ORDERING INFORMATION

The Ashbury MultiMedia Group has produced a Trivia Masters database that can be used with this copy of MultiMedia trivia. The TRIVIA MASTERS 1 module has 200 Questions, 40 per category. The topics for Trivia Masters 1 are Science, History, Arts/Lit/Music, Sports and Geography. Like the sample database, each question has a picture, and about 10% of them contain a voice/sound clip that is associated with the trivia question. We are currently working on new Modules such as JUST FOR KIDS, ENTERTAINMENT, SPORTS TRIVIA, and TRIVIA MASTERS II. We would be happy to hear any suggestions you might have for future modules. If the demand is there, we will create them.

By registering your copy of MultiMedia Trivia, we will send you the Trivia Masters I database and the latest version of the Trivia Masters program. We will also keep you aware as new modules are added. Tech support is free whether or not you register, we would be glad to hear from you!

Order Form
