WynSage 1.1 for Windows - Daily Quick Quotes for your Computer
©1944 Nathaniel S. Johnson
(UnRegistered Version)

* Important (read licence text)
Make certain that the files VBRUN200.DLL and MHGCMD.VBX (enclosed) have been copied into your Windows System directory. **WYNSAGE.EXE** can be put in any directory you wish.

INSTALLING WYNSAGE

Install WynSage into Program Manager or your favorite shell just as you would any Windows program. Double-click on the icon, WynSage will start and a quote for the day will pop up at the botton of your screen. This is where WynSage stays - it cannot be moved. Notice that the WynSage bottom bar also displays the current date and time.

RUNNING WYNSAGE

Click on that bottom bar with the **RIGHT MOUSE BUTTON** and WynSage will display a configuration screen. You may choose to have WynSage always remain on top of any open Windows application. If so, click the ON TOP option button. Similarly, you can choose text color and 3D attributes. Try text **BOLD** or not BOLD. Whatever you choose, these settings will be saved each succeeding session. You may change the configuration as often as you wish. To exit WynSage click on the bottom bar with the **LEFT** MOUSE BUTTON.

EXTRA OPTION

You may choose to copy your daily quote into the Windows clipboard for use in other Windows text applications. Click on that bottom bar with the **RIGHT MOUSE BUTTON** and click on the clipboard icon. Your quote for the day is now in the Windows clipboard. Paste into NotePad, Write, Word for WIndows . . . perhaps a daily journal or diary.

USES

Run WynSage at bootup! You can leave the bar its quote, time and date at the bottom and on top of your applications. Or, a quick click with the left mouse button and its gone!

THIS UNREGISTERED VERSION

This version contains a total of 31 quotes - a different one for each day of the month. The **registered** version contains 366 quotes - a different one for each day of the year. This edition contains no "nag" screens and is not crippled in any way. To receive your fully **registered** version, send only $12.00 (check or international postal money order) to:
