Instructions for installation:

Three Options:

1)Automatic Installation:

Copy this template to your C:\WINWORD\TEMPLATE directory. This Automatic Installation will only work if your Word directory is C:\WINWORD. If not, follow the short and easy installation choices two or three below.

Click on
the Install
Button above.

- 2) Use the abbreviated toolbar as a whole, or
- 3) Drag and Drop the Buttons you would like to use.

EASY MANUAL INSTALLATION: (OPTION 2 or 3)

Note: When the word *choose* is used, it usually indicates a menu, or button choice within a dialog box, or the pull-down menus at the top of the screen.

1) Instructions- Use as a whole

Open this document template. Choose Tools, Macro, Organizer. Click on the Toolbars Tab. In the left hand list box, choose the AFCOLICO.dot, and click on the only choice- AF Colored Icons Library. Choose the destination as the Normal.dot and click the copy button. Now, click the bottom close button. After a successful copy, choose View, Toolbars, and put a check in the box AF Colored Icons Library. The icons included in this set are assigned their appropriate functions. After checking the box, click OK. You can now manipulate, move, or modify the toolbar and its buttons, or images. For information on how to do this, refer to your Microsoft Word for Windows 6.0 User's Guide.

2) Pick and Choose- Installation

Open this document template. Choose Tools, Macro, Organizer. Click on the Toolbars Tab. In the left hand list box, choose the AFCOLICO.dot, and click on the only choice- AF Colored Icons Library. Choose the destination as the Normal.dot and click the copy button. Now, click the bottom close button. After a successful copy, choose View, Toolbars, and put a check in the box AF Colored Icons Library. The icons included in this set are assigned their appropriate functions. After checking the box, click OK. Now choose View, Toolbars, Customize. You can now remove buttons from my toolbar, replace and delete buttons on your original toolbars, or copy the images of my buttons that may be appropriate for a particular macro you may have. Toolbar customization relies on a drag and drop interface for easy selection. When choosing just to copy or paste the image of the button, use the right mouse button. You may then delete my toolbar, having already copied the images you want for, your use. More instructions and diagrams on how to perform these functions is found in your Word manual.
