Macro Installer Master Document

© Edward Guy, CDP 1993/4

This document is really a template to carry macros.

DoubleClick the button above and you will be presented with a list box showing all of your Global macros. The ones you select will be attached to the document for transportation. You may choose to have the macros encrypted when copied to preserve your trade secrets.

To install as Global, just double click on the button below.

After picking up macro(s) to carry, you may change any part of the document except the part inside the bordered box above and it will still work. In this way you may create your own custom install document, and ship it around to your users. To save confusion, you should delete the macro "PickUpMacro" before you distribute it but you should not delete the macros "Install" or "AutoOpen". All the users have to do to install the macros as global macros on their machines is to double click the button in the bordered box.

Registered versions will incorporate the user name from "TOOLS OPTIONS INFO" in the confirmation box users see instead of the "UNREGISTERED" watermark message.

Registration and Payment: This software may be used for evaluation purposes for a maximum of 30 days without payment. Those wishing continued use of the software are required to purchase a licence to use the software at a cost of \$20 US per computer on which it will be used for a registered copy on a 3.5 inch disk by mail or \$15 by EMail file transfer by submitting the fee to the address below. Carrier Pigeon is ID# 1946 in the Compuserve Software Registration Database (**GO SWREG**), for the \$15 Electronic registration only.

Edward Guy, 1752 Duchess Avenue, West Vancouver, BC, Canada V7V 1P9. Compuserve 71750,1036
