

FilewareTM 3.x/w2

**File & Document Management,
Personal Information Management,
and Macro Power Utilities for
*Microsoft[®] Word for WindowsTM***

Program Un-Installer

**Copyright © Total System Solutions, Inc. 1992-94
All Rights Reserved.**

Use this utility to un-install ***Fileware 3.x/w2***. It will remove all the program's macro libraries. It will not delete the DLL's from the WINDOWS/SYSTEM sub-directory because other applications might need them. All together, these files are only 95 K total size. If you still wish to remove them yourself, they are: fwdlg.dll, metzx.dll, tss2.dll.
