Dear John,

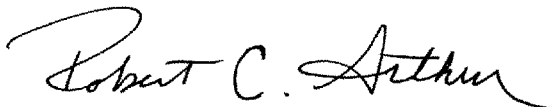

This personalized fax was sent to you using *MergeFax 2.1*, a powerful add-on program that allows you to "mail-merge" group fax THOUSANDS of PERSONALIZED faxes with Word for Windows 6.0 and WinFax PRO 3.0, 4.0, and WinFax PRO for Networks.

Quickly "touch" all of your customers—locally and world-wide—with the stroke of a single key. For example, to send this fax to a whole group of people, I simply typed up this message and hit Alt-M! That's it!

You can use it to send price lists, special offers, or new product announcements to all your customers. Or send sales and marketing information to your distribution and sales staff. Or send press releases, newsletters, event announcements, itineraries, investment updates, etc.—each one personally written to each individual.

If it's true that in today's "information society," the most successful people are those who can more effectively organize and distribute information, then *MergeFax 2.1* is a great tool to have in your "toolbox"! Get yourself a copy, install it, and hit Alt-M!

Sincerely,

Robert C. Arthur  
President
