Instructions for Registration

General

A Plan is a Shareware program in compliance with the requirements of Association of Shareware Professionals (ASP). It is therefor a complete program without crippling of any kind.

There are no "Time-Loops" or any other registration "gimmicks" built into the Program, and the shareware Version has complete functionality.

Please Test A Plan for 30 days completely. You may also make copies of the complete, unchanged, and unregistered Program to give away. (If you have a registered copy of A Plan, simply do NOT copy init.dat when you distribute the Program.)

If you should decide within that time frame that A Plan has a value of \$50 and you wish to use the Software further, we ask you to Please Register your copy.

When you Register, you will receive an individual Registrations number, which will remove the "Please Register" screen at the Start of the Program. (Also you will no longer wake up in a cold sweat in the middle of the night from your bad conscience.) You will also receive (pending availability) news of new program versions, and the possibility to buy inexpensive updates. (Planned Additions)

If necessary, we are naturally overjoyed to hear from you (also as an Unregistered user) Our address and Telephone number are at Address Further details on registration can be found by selecting "Registration Info" at the start of A Plan.

Liability

Now that we've discussed registration, it's time to get rid of the "small print." It's the same as you've read in the last hundred ASP shareware programs, but you can get it - like everything else - here, too.

With A-Plan you recieve no guarantee, expressed or implied, including, but not limited to, merchantability or fitness for any express purpose.

We also accept no responsibility for the usefulness of this program or it's sale price.

We accept under absolutely no set of circumstances the liability for lost time and wages or

lost profit that result from use or uselessness of this program or it's documentation. This is also true if the author and distributor are informed of possible damages.

(In short: "Whoever uses this program is guilty himself!")

.....

- The serial number is required to generate your password for you. It will be automatically generated at program start and saved in the file init.dat in the A Plan directory. You may then see it under the menu "Register..." or by calling the Aboutbox "Info: About A Plan...".

- Discout Table:

Copies	Discount
> 5	5%
> 10	20%
> 25	25%
> 50	30%

REGISTRATION FORM

Please Fax this form to 011 49 9334 8550 or mail it to:
