Blind Mellon Software

# Open Graphics

You may use the open option in the file menu to open a graphic file, in addition if you click the graphic picture, the open dialog will appear, this provides a faster access for review of pictures.

Blind Mellon Software

# Setup

The setup option allows the user to specify a favorite directory for graphic review, you may also specify a time delay between slides in the slide show.

Blind Mellon Software

# Slideshow

The main menu has a slideshow option. This option allows you to build lists of graphic files for review in a slideshow format.
