Blind Mellon Software

Left Mouse Button

Use the left mouse button to draw a rectangle(box) that will be saved as a BMP.

Blind Mellon Software

Storage Directory

The directory that the Screen Images will be saved is defined.

Blind Mellon Software

Convert to icon

Select this option to convert BMP files to ICO format.

Blind Mellon Software

Cut a section

Select a section of screen to save with your mouse. Place your mouse at the top left hand corner of the object, then depress the left mouse button and hold it, dragging the mouse to the bottom right hand corner of the object and then release the mouse button.

Blind Mellon Software

Edit

Once the screen image has been captured, you will be given the option to save it, or have screen grabber call windows paintbrush to edit it.
