Introduction

JACKPOT SLOTS is a collection of 3 slot machine games: JACKPOT, LUCKY 7 and TREASURE CHEST. Each of the games are fun and exciting and will keep you entertained for hours. All 3 games are played from a standard 3 wheel slot machine but have different twists to them.

JACKPOT is the only game in which you can win with 1 or 2 cherries on the payline. In fact it is the only game with cherries. You won't win a lot with 1 or 2 cherries but it will keep your head above water. All the other games always require "Three of a Kind" to win.

LUCKY 7 will keep you going with several good payoffs but it will make your heart race trying to hit the "Big One"! It is also a bit different in that any combination of 7s or any combination of bars will win.

TREASURE CHEST has the biggest twist of all. It adds a feature called "Spin 'til Win". When any "Spin 'til Win" symbol lands on the payline the slot machine will continue to spin until you get a winning payline. It will not deduct any credit from you during the free spins and it will payoff according to your last wager. Hope you hit it big!!!

Registration Information

If you are a registered user of JACKPOT SLOTS, we thank you for your support. If you have not yet registered this game, then we thank you for trying it.

If you are using the shareware version of JACKPOT SLOTS, then you will notice that not all the features found in the complete, registered version are active. The shareware version is functional enough for you to evaluate the game and decide if you wish to register. You can evaluate the shareware version of JACKPOT SLOTS for up to 30 days without obligation. However, if you wish to continue using the game after 30 days, you must register it or else stop using it. This program is protected by U.S. and International Copyrights.

When you register, you get a much more complete game which allows you to borrow unlimited credits, save games, win credits in LUCKY 7 and TREASURE CHEST, starts a new game with 500 credits (versus only 100 in the shareware version) and gives you the ability to bet in larger increments. All the shareware reminders and order screens are also removed in the registered version of JACKPOT SLOTS.

The price is \$20 for JACKPOT SLOTS (which registers you for all 3 games (JACKPOT, LUCKY 7 and TREASURE CHEST)).

Placing a Bet

Placing a bet is done by clicking on the coin slot. The coin slot is labeled with the current "Bet Amount." For example, if the "Bet Amount" is set at \$1, then each time you click on the coin slot, your wager is increased by \$1. You may bet 1 to 3 coins with each coin being worth \$1, \$5 or \$10, therefore you can bet a minimum of \$1 to a maximum of \$30 per wheel spin.

Note You can also place your bet by pressing the 'B' key on your computer keyboard. Each press is the same as a mouse click on the coin slot.

Spinning

To spin the slot wheels, click on the top of the slot machine's handle. Before spinning, you must place your bet, however, after placing a bet and spinning, you can continue to spin at the same wager amount by continuing to click on the slot handle.

Note You can also spin by pressing the [Enter] key on your computer keyboard. This has the same effect as clicking on the slot machine's handle.

Borrowing Credits

You can borrow as many credits as you need or want. To borrow credits, choose the amount to borrow by first selecting "Borrow Credits" from under the "Bank" menu. You can continue to borrow by the available increments until you have borrow as much as you want.

Note The game keeps track of your borrowing and calculates your winnings by subtracting borrowing from actual credits. Also note that the credits you start with are considered "borrowed."

Payoffs

In JACKPOT you can win up to 100 times your wager plus the "Bonus Pool" on a single spin by having 3 "Pots of Gold" on the payline. Other winning combinations are: 3 Jokers (20 X wager), 3 Money Bags (12 X wager), 3 Medals (10 X wager), 3 of the 3-Bars (7 X wager), 3 Cherries (5 X wager), 2 Cherries (3 X wager) and 1 Cherry (1 X wager). The "Pot of Gold" symbol is "Wild" and can help with any of the payoffs.

In LUCKY 7 you can win up to 100 times your wager plus the "Bonus Pool" on a single spin by having 3 "Lucky 7s" on the payline. Other winning combinations are; 3 Green 7s (25 X wager), 3 Blue 7s (25 X wager), 3 Red 7s (25 X wager), 3 of any color 7 (7 X wager), 3 of the 3-Bars (7 X wager), 3 of the 2-Bars (5 X wager) and 3 of any Bar (1 X wager). The "Lucky 7" symbol is "Wild" with any of the payoffs involving 7s: Green, Blue, Red or Any 7s .

In TREASURE CHEST you can win up to 25 times your wager plus the "Bonus Pool" on a single spin by having 3 "Treasure Chests" on the payline. Other winning combinations are; 3 Diamonds (10 X wager), 3 Gold Bars (10 X wager), 3 Money Bags (7 X wager), 3 Coin Stacks (4 X wager), 3 Piggy Banks (3 X wager) and 3 Blanks (1 X wager). The "Treasure Chest" symbol is "Wild" and can help with any of the payoffs except "Spin till Win". "Spin till Win" symbol is a twist that is added to this game. If any "Spin til Win" symbol lands anywhere on the pay line the wheels will continue to spin until you win. You will not lose credits during this time and when you win the payoff will be based on your last wager.

Bonus Pool

Another feature of the game is the bonus pool. The bonus pool starts out with 50 credits, and credits are added to the pool at the rate of 10% of all wagers made (betting 10 credits would add 1 credit to the bonus pool). To win the "Bonus Pool" you must get 3 of the jackpot symbols on the payline in the same spin. In "Jackpot Slots" the jackpot symbol is the "Pot of Gold". In "Lucky Seven" the jackpot symbol is the "Lucky Seven", and in "Treasure Chest" the jackpot symbol is the "Treasure Chest". You can switch back and forth between the 3 slot games and the "Bonus Pool" will continue to increase. Once you win the "Bonus Pool" it will reset to 50 credits.

Bet Amount

You can set the bet amount by selecting "Bet Amount" from under the "Options" menu.

This sets the increment that your wager is increased by clicking on the coin slot. For example, if "Bet Amount" is set to \$1, then \$1 will be deposited in the machine each time you click on the coin slot. You may bet 1 to 3 coins with each coin being worth \$1, \$5 or \$10, therefore you can bet a minimum of \$1 or to a maximum of \$30 per wheel spin.

Digit Colors

You can change the colors of the the slot machine's digital numbers by selecting "Digit Colors" from under the "Options" menu.

Spin Speed

This controls how fast the wheels spin. To change the speed setting, select "Speed" from under the "Options" menu.

Sound

You can toggle the sound on and off by selecting "Sound" from under the "Options" menu. When sound is on, then there will be a check mark next to "On."
