

## ATTENTION ARTISTS AND CALLIGRAPHERS!

### DAUB Dynamic Brush

Want to try something different? Experience DAUB's vector graphics with a free-flowing bitmap style feel. Doodle, create some art, experiment with special effects or create a calligraphic masterpiece. Here's some advice from Jerry Olsen, who writes for such magazines as PC Magazine and Alternative Computing Magazine:

*'Whether you want to imitate ancient scribes to create unique invitations, pen Japanese word forms, or paint on an electronic canvass, run - don't walk - to try this marvellous shareware Windows product.'*

And from Daniel Rutter, PC Review:

*'...its big strength is that it lets you do calligraphic tricks on your computer... the results can be quite striking.'*

Currently at Version 2.0, which was developed with considerable input from professional calligraphers on the Internet.
