

Hop

The object of the puzzle is to move the black balls into the spaces occupied by the gray balls and vice versa. Move by clicking on the ball you want to move. You may move the balls one step forward, if the space is empty, or you may jump over a ball of the opposite color, as in Chinese Checkers. You cannot jump over two balls, or over a ball of the same color, nor are you permitted to move backwards.

There is more than one solution to the puzzle.

If you want Hop to solve the puzzle automatically, click on "Auto-Solve." Auto-Solve may only be used if you have not yet made any moves; after you make a move, the Auto-Solve menu option will be grayed.

To start a new game, click on "New Game."
