

INTEROFFICE MEMORANDUM

<u>DATE:</u>	February 8, 1990	<u>FROM:</u> Info. Center
<u>PRODUCT:</u>	WordPerfect	<u>VERSION:</u> 5.0
<u>RELEASE DATE:</u>	All	
<u>SUBJECT:</u>	Bitstream 3.0 Installation Manual For 5.0 and 5.1	

Errors

Customers and some operators may be confused by an error in the Bitstream Fontware 3.0 installation manual for WordPerfect 5.0 and 5.1. Page 1-3 of book 2 includes the dates required to use Bitstream with 5.1 and 5.0, respectively. The dates mentioned for WordPerfect 5.0 are **incorrect**. All of the dates in the manual are 1989 (7/11/89, 7/15/89, 6/12/89, etc.). Two of these should be 1988. These dates are 7/11/88 and 7/15/88. Please be aware of this, because customers may call requesting an update when it is not needed.

For your use, the correct information is:

Fontware 3.0 works with version of WordPerfect 5.0 dated 7/11/88 or later. The .ALL file date must be 7/15/88 or later. WordPerfect recommends the .ALL file date be 9/16/89 or later. If you use a Canon LBP-8II or HP Deskjet printer, the .ALL files must be 5/25/89 or later, and the WordPerfect program date must be 6/12/89 or later. If you use a Canon LBP-8III, the .ALL file must be 12/19/89 or later.
