Using Hebrew Letters

Use shift F1, 6 & at #2 replace MACRO with HEBREW
When finished use shift F1, 6 & and #2 replace HEBREW with MACRO

use alt and
whatever else
is in this column

א	a	aleph
ּב	b	bet
ב	e	vet
ג	g	gimmel
ד	d	daled
ה	h	hey
ו	v	vav
ז	z	zayin
ח	c	chet
ט	t	tet
י	y	yod
כ	k	chaf
ך	q	final kaf
ּכ	j	kaf
ל	l	lamed
מ	m	mem
ם	F10 + m + enter	final mem
נ	n	nun

ן   F10 + n + enter   final nun

ס   s   samech

ע   i   ayin

9/7/91
 use alt and
 whatever else
is in this column

ʾ   p   pay

פ   f   fay

ף   F10 + p enter   final pay

צ   o   tzade

ץ   F10 + tz + enter final tzade

ק   F10 + j + enter   kuf

ר   r   resh

ש   w   shin

ש   x   sin

ת   u   taf

The vowels are a little more complicated to do. Use:

Alt and F10 and then the appropriate key & then hit the enter key.

1 for		6 for	.	11 for
2 for		7 for	..	12 for
3 for		8 for		13 for
4 for		9 for		
5 for		0 for		

Once you do the vowel macro, it stops at a screen that is ready for overstrike. Then enter the regular letter the way the original instructions say. The computer screen will say "please wait", but go ahead and hit the enter 3 times. This is to get you out of the overstrike area and back to your macuscript. You will now also need to hit the backspace

key.
