<u>PRODUCT:</u>                      WordPerfect            <u>VERSION:</u>        5.X
<u>RELEASE DATE:</u>                All
<u>SUBJECT:</u>                      Converting Footnotes to Endnotes Using Temporary Columns

WordPerfect does not allow Footnotes in Text Columns.  Defining columns after footnotes have been defined will change all Footnotes to Endnotes.  This can be a useful shortcut for users who wish to change footnotes to endnotes.  To change the notes, the user should define columns at the top of the document and then turn the columns on.  Press Control F3, 0 to rewrite the screen and then delete the Column codes.
