## **What is iSBiSTER Time & Chaos?**

### **What is Time & Chaos from iSBiSTER INTERNATIONAL**

**Time & Chaos** is a tool to provide an alternative to the overly complex Personal Information Managers (PIMS). Having purchased and evaluated 3 major, highly rated, high priced WINDOWS 3.0 PIMS, I was frustrated with their inability to present to me and print a simple Calendar, My Daily Appointments, My To-do list and my phone book. I expect a Windows Product to be obvious, and intuitive. So....I wrote Time & Chaos. **Hopefully you too will find Time & Chaos to be a valuable tool.**

## **Getting Started?**

## **Getting Started?**

Ensure all Time & Choas files are in the same directory.

### **Calendar**

Previous/Next: Rolls Calendar to that month that is either immediately prior or after the month shown.

Today: Will check your computers date and go to that date. Should this not work properly please check to see that your system date is set correctly.

You can click on any calendar date to obtain a list of appointments and todo's for that date.

### **Appointments**

Add: Will call a dialog box for you to complete with details regarding your forthcoming appointment.

DOUBLE CLICKING on any appointment listed will recall the appointment as it was entered. You may now edit the appointment or delete it as appropriate.

### **To do's**

Add: Will call a dialog box for you to complete with details regarding your forthcoming to do.

DOUBLE CLICKING on any todo listed will recall the to do as it was entered. You may now edit it or delete it as appropriate.

### **Telephone Book**

Add: Will call a dialog box for you to complete with the telephone details regarding your contact.

SINGLE CLICKING on any telephone book entry listed will recall the Telephone Numbers associated with the entry

DOUBLE CLICKING on any telephone book entry listed will recall the entry as it was entered. You may now edit the entry or delete it as appropriate.
