Creepy Disclaimer (the small print in big letters)

Don't forget that there are no warranties associated with this software beyond saying that it will do what it says in the documentation. If you manage to mess up your installation and think it has something to do with WinMenu, I'm sorry but it only cost £10, didn't it.

US and other non UK Users!

Please do register!
Without your registration further development of WinMenu is greatly restricted, plus that "unregistered copy" notice is really irritating isn't it.
All Cheques / Bank Drafts to be in Sterling and drawn on a London bank please.

As a special incentive, there are no extra shipping costs for non-UK orders!

Just for the record, WinMenu is © Copyright 1992, RTFM Software; this chatty registration form is entirely public domain.
