

TEXT1,C,79	TES
@2	2
@6	6
In this tutorial, we'll add 2 new activities for the NBF199 truck. Each of those activities will have an appointment date that will then appear in the Appointments reports.	0
-	0
The default date for appointments in the activity file is '01/01/1901'.	0
This date tells the program that you do not have a follow up appointment for this activity (ie, 01/01/1901 means NO future appointment).	0
Any other date entered here will appear in the Appointments menu, option 4, Master File Menu.	0
@6	6
Whenever you enter a future appointment in the Activity file, the program can create appointment schedules from a menu. Also, every time you invoke this program, it will do an analysis of all appointments scheduled for that day and present that list to you. Additionally, if you have at least one appointment for that day, the program will do a graphical analysis of your appointments for the next 2 weeks and present that graph to you. It does all this everytime you execute the program, SERVICE.EXE, without any request from you.	0

Enter the name you want to relate an activity to.	0
At this screen you have 2 options: to enter the desired name or	0
to use the 'NEW' designator. 'NEW' should be use only intermittently	0
and restricted to those who would use this program in your absence.	0
When entering 'NEW', the program allows an unlimited number of 'NEW'	0
or unattached activities. These are not related to any records and are	0
grouped under a 'NEW' heading in the activity reports.	0
	0
If you enter a partial word, the program will attempt to find a match.	0
If more than one partial match is made, you will be prompted for another	0
entry.	0
	0
If you are finished entering records, touch the space bar once to remove	0
'NEW', followed by a Return. This will take you back to the prior menu.	0
@11	11
We want to add one activity record for the truck NBF199.	0
Since this screen can handle a partial match, enter 'NBF'	0
