

Pro Pick v1.1 (c) 1993 Conan L. Brown

This program is not to be used in violation of any Law. By using Pro Pick you accept the responsibility for knowing and acting within all Local, State and Federal regulations that apply in your situation. In short, if it isn't legal for you to use Pro Pick, Don't! No guarantees of any kind are made regarding the performance of this program.

Installation instructions for Pro Pick for Windows.

System Requirements:

1. Windows 3.0 or newer running in Standard or Enhanced mode.
2. Vbrun200.DLL - The Visual Basic 2.0 Runtime Library. This file is not included with ProPick but can be obtained from America Online, Compuserve or most any

BBS.

It is best to place Vbrun200.DLL in your Windows directory or a directory that is included in your path statement.

Program Files:

PROPICK.EXE	Pro Pick program, run from Windows program manager or other launcher.
PROTIB.DAT PROTI.DAT PROSE.DAT PRONM.DAT	Pro Pick data files
PROST93.DAT	Statistic file for 1993. Pro Pick can create statistic files for future years, check the help window for details.
PROSC93.DAT	Schedule for 1993. Pro Pick can create schedule files for future years.
DDEML.DLL	Library file used by Pro Pick. Keep in the same directory as the other files or install in a directory that is included in your Path as your Windows directory.
Statement such	Windows 3.1 users will already have this file in their system directory. It was included for users of Windows 3.0.

Easiest installation, just keep all eight files together in any one directory .

With the program up and running, please check the Help Topics for information regarding specific Pro Pick features.

Registering your copy of Pro Pick will enable printer support of all Statistics, Schedules, Predictions and Results.

Please send \$8.00 to....
