

## **WinPIM 3D** Version 2.2 From: **Great Looking Software**

### **Files included with this program are;**

winpim3d.exe = Main Program File  
winpim3d.dbf = rolodex database - **MUST** reside with winpim3d.exe  
winpim3d.mdx = rolodex database dBaseIV Index File - **MUST** reside with  
winpim3d.exe  
winpimap.dbf = appointment database - **MUST** reside with winpim3d.exe  
winpimap.mdx = appointment database dBaseIV Index File - **MUST** reside  
with winpim3d.exe  
winpimtd.dbf = ToDo database - **MUST** reside with winpim3d.exe  
winpimtd.mdx = ToDo database dBaseIV Index File - **MUST** reside with  
winpim3d.exe  
winpim3d.log = Rolodex 3D Phone Log - **MUST** reside with winpim3d.exe  
gl dates.dbf = dates database - **MUST** reside with winpim3d.exe  
gl dates.mdx = rolodex database dBaseIV Index File - **MUST** reside with  
winpim3d.exe  
gldialer.dbf = dialer database - **MUST** reside with the winpim3d.exe  
gldialer.mdx = dialer database dBaseIV Index File - **MUST** reside with  
winpim3d.exe  
winpim3d.wri = This File - **MUST** be in the **Windows Directory**  
ss3d.vbx , ss3d2.vbx and ss3d3.vbx = 3D library - **MUST** be in the **Windows  
Directory**  
qevbdbf.vbx = Database Engine - **MUST** be in the **Windows Directory**  
qex.ini = qevbdbf.vbx ini file - **MUST** be in the **Windows Directory**

**Please make sure that all the dbf/mdx files are located in the same  
directory with the WINPIM3D.EXE File and the vbx and ini files are located  
in your Windows Directory.**

### **Main Screen**

**NOTE:** The **TITLE FIELD** and the **STATE FIELD** DropDown ListBox each have a blank field which should **NEVER** be removed or modified for these blank fields are necessary for the use of QBE Mode to work correctly.

**NOTE:** Dates should always be entered in the following format;  
Three Letter Month (Jan, Feb, Mar... etc) and Two number date (01 , 02 , etc...)  
Do **not** include the Year when entering Birthday and Anniversary dates , besides this program will not allow it so you can't anyway :)  
In **The Appointment Screen** the date is entered including the year as **Jul 13,1993**  
**or Jul 01,1993**

**NOTE:** Always enter a Long Distance Telephone Number like this 1-702-367-0326 for direct calls or beginning with a "0" for Long Distance Collect Calls.

**NOTE:** The Home , End , PageUp , PageDown keys are functional and the Grey Plus and Minus keys selects the next or previous record as long as the Horizontal Scroll Bar is blinking (has focus).

## Menu Commands

### 1- File Menu

- A- **3D Toggle** = Toggles the text boxes to visible and invisible.
- B **Save** = Saves the current Settings and Font Attributes.
- C- **Save & Exit** = Saves the Current Settings and Font Attributes and exits program.
- D- **Exit** = Exits program.

### 2- Database Menu

- A- **Delete Record** = Deletes a record from the database ... does not physically remove.
- B- **Insert Record** = After **New Record** has been initiated this physically **Inserts** the  
new record into the database.
- C- **Modify Record** = Makes the Field text boxes visible to allow you to **Update**  
the current record.
- D- **New Record** = Clears all the fields and readies the database for a new record.
- E- **Pack Database** = Physically removes records previously Deleted from the database.

#### F- **TransActions**

- 1- **TransAction Begin** = Starts a transaction.
- 2- **TransAction Commit** = Saves all transactions since **Transaction Begin**  
was initiated.
- 3- **TransAction RollBack** = Discards all TransActions since **Transaction Begin**  
was initiated (Like an Undo Command)
- G- **Update Record** = Updates any changes to the database after **Modify Record** was  
initiated.

### 3- Print Menu

- A- **Index Cards** = Prints 3X5 or 2 1/6X4 Rotary Index Cards - **Dot Madrix Printers Only**
- A- **Labels** = Prints 15/16 X 3 1/2 Mailing Labels - **Dot Matrix Printers Only**
- B- **Summary Report** = Prints a report on 8 1/2 X 11 Paper - **All Printers**

### 4- Query Menu

A predefined list of Query Conditions specifying **TYPE** as the Condition.

**All Records** = All records

**Business** = Where **Business TYPE** = Yes (or true)

**Friend** = Where **Friend TYPE** = Yes (or true)

**Other** = Where **Other TYPE** = Yes (or true)

**Relative** = Where **Relative TYPE** = Yes (or true)

### 5- Settings Menu

**ComPort** = Allows you to select and save the comport your modem uses.

**BaudRate** = Allow you to select and save your modem baud rate.

**Prefix** = Allows you to select and save your **DialOut** prefix if you need one.

**Reminder** = Allows you to select and save wether or not you want the

**Reminder**

**Screen** to appear automatically at StartUp.

### 6- Sort By Menu

Allows you to Sort the Database by the following Fields..

Anniversary, Birthday, City, FirstName, Lastname, State and ZipCode.

### 7- View Menu

- Home** = Selects the Home Address Fields for Viewing.
- Buisness** = Selects the Business Address Fields for Viewing.
- PhoneLog** = Brings up the PhoneLog with Windows Notepad Program.
- Reminders** = Displays the Reminder List for Viewing

## 8- Help Menu

- About** = Brings up the About Screen.
- Register** = Brings up the Registration Panel.
- Help Text** = Brings up this Document.

## ToolBar Buttons

## Left to Right , Top to Bottom

- 1-**DialScreen Button** = Brings up the Quick Dialer Screen.
- 2-**Doodle Button** = Brings up the Doodle Pad where your can doodle while chatting on phone.
- 3-**Dates Button** = Brings up the Dates Screen displaying Birthdays and Anniversaries.
- 4-**Browse Table Button** = Brings up the Browse Table Grid Screen.
- 5-**Fonts Button** = Brings up the Font Style Selection Screen.
- 6-**Exit Button** = Exits the application (does **not** save and changes to the Settings or Fonts).

## Command Buttons

- 1-**New Button** = Is **disabled** until this program is registered.  
 Clears and readies the Fields for a New Record and changes its color to **red** and its caption to **Insert**. Once you have filled in the Fields you then press the same button again which physically **inserts** the new record into the database. When done inserting new records the caption returns to **New**.
- 2-**Modify Button** = Makes the Field text boxes visible to allow for updating a record. Same as the **3D button** on the toolbar or pressing the **F3** function key.  
 Its caption turns to **Update** and its color turns to **red**. Pressing this button while its caption is **Update** , records any modifications made to any of the Fields and updates the database.
- 3-**Delete Button** = Marks a record for deletion and the record becomes unreadable . Using the **Pack Database** command in the **Database Menu** physically removes the marked records from the databse thereby freeing disk space.

4-**Query Button** = Queries all records according to the current Sort Order and query conditions or QBE Example. Changes its caption when **New Button** is pressed to

**Cancel** to cancel a adding a new record.

5-**QBE Button** = Enters **Query By Example Mode**. Clears all the fields to allow user to

enter a particular example to query. Once an example has been entered

press the **Query** button to query all records that match the example.

**QBE** Matches **EXACTLY** what you enter in the Fields and is **CASE SENSITIVE**

#### **EXAMPLES:**

Clicking the **Business Type** and entering an "S" in the LastName Field

Would Query just those records that are **TYPE** Business and whose LastName Starts with the Letter "S".

and clicking

Selecting "NV" in the State Field and "L" in the LastName Field

was "NV"

the **Other Type**, Would query just those records Where the State

and the LastName Started with the letter "L" and whose **TYPE** is

**Other.**

You can enter as many examples in as many Fields as you like.

**Remember... QBE IS CASE SENSITIVE.**

6-**Clear QBE** = After you have entered **QBE** and Queried your example you must re-enter

**QBE** to **Clear QBE**. After Clearing QBE you then press the **Query Button**

to return to your initial Sort and Query .

### **Appointments / TO DO**

Click This Button to Bring up The Appointment / TO DO Screen.

The Appoint Screen is pretty straightforward and initially displays the calendar.

When finished creating a new appointment / ToDo or modifying an existing appointment / ToDo

**ALWAYS** Click the **DONE** Button.

### **TYPE FIELD CheckBoxes**

T	<input checked="" type="checkbox"/>	Business	<input type="checkbox"/>
Y	<input type="checkbox"/>	Relative	
P	<input type="checkbox"/>	Friend	
E	<input type="checkbox"/>	Other	<input type="checkbox"/>

In this display the **Business TYPE** Checkbox is **Checked** and the Record now contains the

value of "Yes" and UnChecked CheckBox contains the value of "No"

The **Upper Right CheckBox** (to the right of the **Business TYPE** CheckBox) is the **Business Address CheckBox** which toggles the viewing of the Business Address

Fields and

Home Address Fields.

#### **NOTE:**

This also will cause the Printing of Index Cards to Print just the Records where the

Business Address Fields are filled in when the Business Address Fields are visible otherwise just the Home Address Fields will be printed along with Name etc....

The **Lower Right CheckBox** (to the right of the **Other TYPE** CheckBox) is the

**Reminder List CheckBox** . At StartUp this checkbox will be checked if you selected

**Reminder "Yes"** in the **Settings Menu**. The reminder List will automatically be displayed if there is a Reminder for the Current Month. If there are no reminders then

the Reminder List will not be displayed unless you select **Reminder** in the **VIEW MENU**

and then the Reminder List will show that there are no reminders... HUH? :)

### **Alpha Command Buttons**

These Buttons **A** Thru **Z** act like the tabs on a Rolodex File Holder.

Selecting a letter will Query all Records Where the LastName begins with the letter you selected.

That letters Color turns to RED. Clicking the same letter again will ReQuery All Records and the letter Color will return to BLACK.

### **Dial Options**

Clicking **Home** will Dial the HomePhone Number of the Currently displayed record. Clicking **Business** will Dial the BusinessPhone Number of the currently displayed record.

Clicking **Manual** will bring up a Manual Dial Screen where you enter the number to dial.

Clicking **Out Prefix** will automatically add the DialOut prefix you selected in the **Settings Menu**

( **8** or **9** ) to the Home or Business Number you select to dial if you need an Outside Line.

### **Browse Table Screen**

#### **Command Buttons**

**Fonts** = Brings up the Font Selection Screen for the Browse Table.

**Goto** = Makes the currently selected record the current record in the Main Screen for

viewing or editing also changes the Sort and Query of the main screen to match the Sort and Query of the Browse Table Screen and closes the Browse Table screen.

Also **Double Clicking** a record in the Grid performs the same action as the **Goto** button.

**Cancel** = Closes the Browse Table Screen and returns to the Main Screen.

**Exit** = Exits the program.

### **Menu Commands**

The Menu Commands found in the Browse Table Screen perform the same Action as those in The Main Screen.

The Home , End , PageUp , PageDown keys are functional and the Grey Plus and Minus keys selects the next or previous record.

**NOTE:** The TITLE FIELD and the STATE FIELD DropDown ListBox each have a blank field which should NEVER be removed or modified for these blank fields are necessary for the use of QBE Mode to work correctly.

The Other Screens (**DATES , QUICK DIALER AND DOODLE PAD SCREENS**) are pretty self explanatory especially after having read this file and used the Main Screen functions.

When creating a new record and if you have filled in a Birthday or an Anniversary Date , that date will automatically be added tho the gldates.dbf and displayed in the Dates Screen and you will also be automatically added to the StartUp Reminder Screen when that Month Arrives.

When entering a new record and have entered a Home Phone Number or Business Phone Number you will be prompted if you would like to add these Phone Numbers to the Quick Dialer Database (gldialer.dbf)

The Quick Dialer Screen List and all other List Boxes uses First Letter Search. So just press a letter and it searches for a List Item beginning with that letter.

**If you have any problems or questions or suggestions, I'd appreciate hearing from you via E-Mail or by telephone.**

**All registered users recieve free telephone support , FREE UPGRADES and Free StandAlone Version of the Quick Dialer and Calendar Appointment Screens...**
