

Sheet1

\*---A macro to assign all graph data ranges (X and A-F) simultaneously.  
Simulates the /Graph Group in Lotus 2.2, the first column/row will  
become X and the rest A-F.

\*---Use the /Range Name Label Right {End} {Down} <ENTER> to define the  
range names in this column (starts with the \Z macro name)

\*---Hold the <ALT> key and press <Z> to activate the macro

\*---Expand and highlight the data range and press <ENTER>
