New Menu Item

This help file starts adds an extra item in the Help menu. It adds an item to display the Dr Help user file.

About this Help file

This Help file was created from a Word for Windows document using a macro written by Roger Hadgraft. Any reasonable Word file can be translated into a Windows Help file (with the aid of the Help Compiler of course). The macro is available as **drhelpe3.zip** on ftp.cica.indiana.edu (in subdirectory **winword**), and a registered version (US$20) is available by contacting roger.hadgraft@eng.monash.edu.au.
