AUTODESK, INC. SOFTWARE LICENSE AGREEMENT

1. Grant of license

In consideration of your agreement to the terms of this Agreement Autodesk, Inc. ("Autodesk") grants you a nonexclusive, nontransferable license to use the enclosed computer program (the "Software") and its accompanying documentation ("Documentation") on equipment owned by you or under your control according to the terms and conditions below.

This Agreement permits a single user to use the Software on only one computer at one location at any one time. However, if this Software is being licensed to you for use on a network, you may operate the Software as a multiple user installation with either

- a. the maximum number of concurrent users being one (1) so that multiple individuals may access the Software, but that only one person at a time may do so, or
- b. the maximum number of concurrent users being two (2) or more, in which case you must pay for an additional license and a document pack for each concurrent user.

If this Software is an educational version, you may use it only for the purpose of training and instruction and for no other purpose. If this Software is a student version, it

may be used only by the student who acquired it and only for study and instruction.

Regardless of which alternative you choose, this Agreement permits you to make only one backup copy of the Software. This Software Package may contain a printed manual and accompanying documentation (the "Documentation") or electronic Documentation. If the Documentation is in printed form, it may not be copied. If the Documentation is in electronic form, you may print out one (1) copy, which may not be copied.

You may make a second copy of the Software on the hard disk of a second computer, provided (a) the second copy of the Software is used exclusively by you, and (b) the second copy of the Software is used exclusively with the copy protection device (if any) supplied with the Software by Autodesk or an Authorized Autodesk Dealer.

2. Multimedia Software

The following special provisions apply to Multimedia Software. A separate copy of the Software and Documentation must be acquired and paid for each user with the following exceptions:

AutoVision; AutoVision Software may be licensed for network use pursuant to Section 1, "Grant of License."

3D Studio Studio Renderer for Silicon Graphics, Inc. (SGI) Workstations. The SGI Renderer may be licensed pursuant to one of the following options (1) Single-Machine License: If you have purchased a Single-Machine License, then the Software may be used on a single SGI workstation, in multiple sessions, if desired. The Software may be used only by the employee stationed at the workstation and as part of network rendering by coworkers employed at the same physical site and address (the "Workstation Site"), with the permitted users having access either remotely or from the Workstation Site. You may make only one backup copy of the Software, except for copies that are made in the process of running multiple sessions on a single workstation. (2) If you have purchased a Site License, then the Software may be installed and run on any workstations at a given Workstation Site, in multiple sessions, if desired. The Software may be used only by employees at the Workstation Site, with the permitted user(s) having access either remotely or from the Workstation Site.

3D Studio Marx: You may modify and make unlimited copies of the source code examples contained in the Software and any resulting binary files for the exclusive purpose of incorporation into your own works (the "User Works") and you may treat the User Works as your own creations with the following restrictions: you must clearly identify any modified sources code examples and any resulting binary files as User Works developed by you, and not by Autodesk and you must use class identifications for any classes of objects you create that are different from the class identifications used by Autodesk.

You may modify and make unlimited copies of the individual animations, still images and audio files contained in the Software for the sole purpose of incorporation into your own animations and still images (the "User Works"). In addition, you may make unlimited copies of any player included in the Software (the "Player") for purposes of playing back the User Works if you include the unmodified Autodesk copyright notice in any such copy. You may not distribute animations, still images, modified or unmodified, or the Player in commercial software without the written permission of Autodesk. You may treat the User Works as your own creations. You may photograph, broadcast (except MIDI files, which must be excluded in any medium for commercial radio or television broadcast), display and transfer to videotape the User Works without providing copyright notices of the original animations and still images contained in the Software. Notwithstanding the single user/one computer license grant in Section 1 of this Agreement, if this Software is 3D Studio software you may install the Software on more than one computer for the exclusive purpose of network rendering of your files.

3D Props and Texture Universe: You may modify and make unlimited copies of files contained in the Software for the exclusive purpose of incorporation into your own User Works. You may treat the User Works as your own creations as long as the Files are not the primary source of the value of the User Works. You may not distribute the Files in the form of a collection or library or as part of a software design tool.

"Hyperwire: You may make unlimited copies of the Runtime Classes, 3D runtime install file, Whip! install file and Hyperwire Samples install file for incorporation into your own works.
