- B. *Plot Editor* best fits in the Utilities category.
- C. *Plot Editor* is designed to allow users to manipulate plots created by any RoseApp. It allows a wide variety of parameters to be set and new objects to be added to the plot. It incorporates the standard *Plot Inspector* and *Data Set Inspector*.

- D. *Plot Editor* is used as part of the Integrated First Year Curriculum to provide further functionality in applications without adding further complexity to them.
- E. *Plot Editor* was developed under NeXTSTEP 2.1.
- F. *Plot Editor* requires no special installation.
- G. The Documentation folder included with the application is required for online documentation built into the application. If it is removed, the application will still function properly, except for Help.
