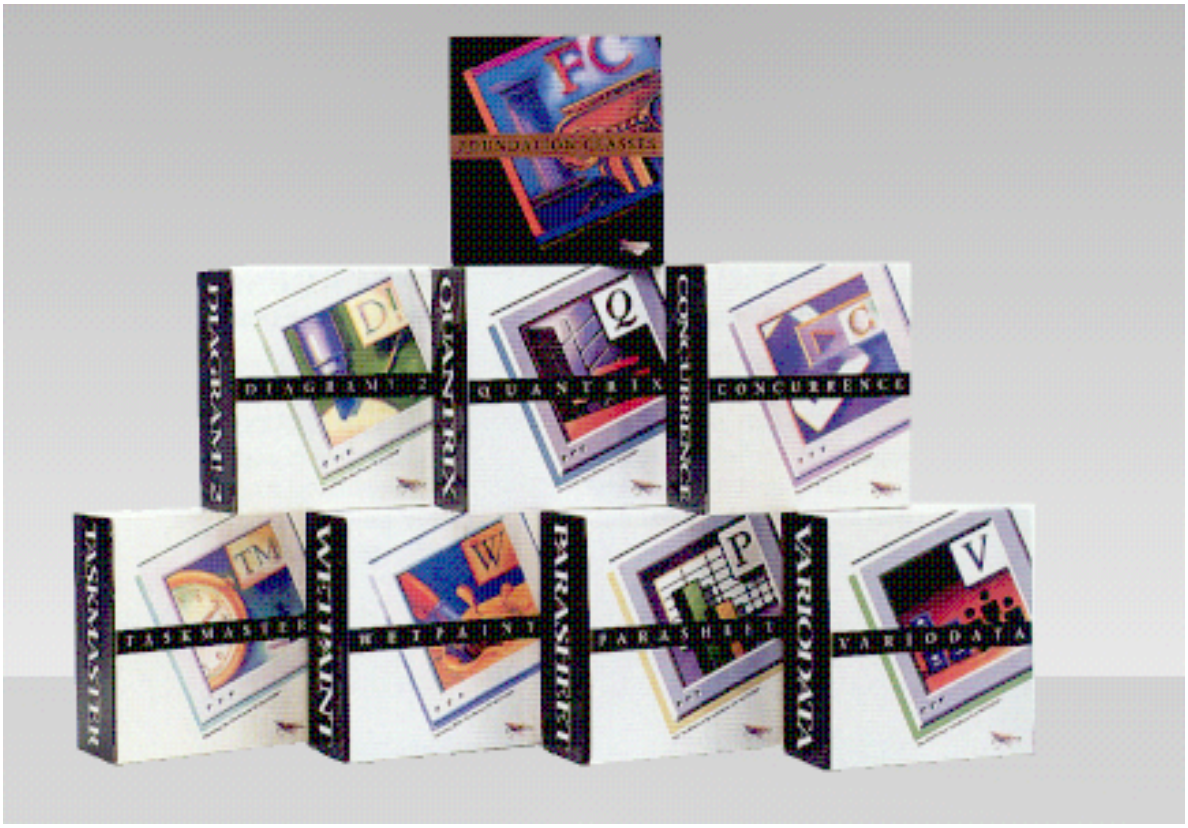
LIGHTHOUSE DESIGN



Lighthouse DESIGN LTD

PREMIERE DEVELOPERS IN OBJECT ENVIRONMENTS

Founded in 1989, Lighthouse Design is one of the software industr y's most experienced developers of applications for purely object-oriented environments. As the premiere provider of desktop solutions for NEXTSTEP , our products and expertise span spreadsheets, database development, project management, presentation, and business and technical graphics. Lighthouse Design ser ves more than 200 of the industr y's most influential enterprises, in the financial ser vices, telecommunications, health care, retail and defense industries.

THE TOOLS OF ENTERPRISE

Lighthouse Design products deliver an immediate return on your NEXTSTEP investment—enabling your organization to capitalize on the benefits of NEXTSTEP today . Object-oriented developers and IS directors alike will find our open file formats and industrial strength API' s an important addition to their development resour ces. And, when you deploy your custom applications, our interoperability , consistent user interfaces and file format compatibility with the most popular programs from Microsoft, Lotus and Claris, will drastically lower your cost of enterprise-wide deployment, support and training.

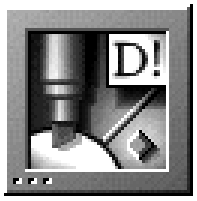
BRINGING OUR EXPER TISE TO YOUR DESKTOP

Our technical expertise spans multiple object environments, giving us a unique perspective on industr y trends and emerging technologies. By bringing those technologies to fruition on your desktop, our products deliver the power and utility of the NEXTSTEP environment. W ith immediate gains in user and developer productivity , our product family allows you to gain critical advantages in time to market and user satisfaction.

Now is the time to take a closer look at Lighthouse Design' s complete line of products.

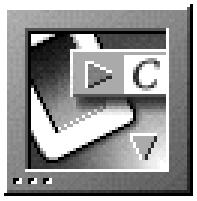
LIGHTHOUSE DESIGN

LIGHTHOUSE DESIGN'S PRODUCT FAMILY



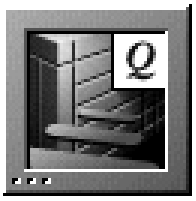
DIAGRAM!
Drawing and Graphics

The first "smart" general-purpose drawing program for NEXTSTEP, designed especially for information graphics—and the business and technical professionals who use them.



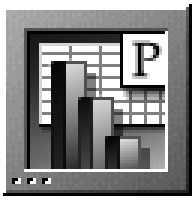
CONCURRENCE
Presentation and Outlining

Our newly enhanced presentation and outlining package for NEXTSTEP, providing users with all the tools they need to easily create professional, high-impact presentations.



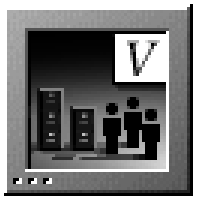
QUANTRIX
Power Spreadsheet

With seamless Lotus Improv compatibility, plain English formulas, multiple views, and a comprehensive API, our multi-dimensional spreadsheet is one of the most powerful applications available for enterprises driven by spreadsheets.



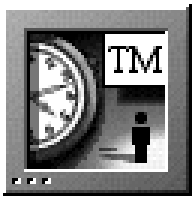
PARASHEET
Traditional Spreadsheet

Introducing ParaSheet—a traditional spreadsheet application for the traditional Excel or 1-2-3 user. Whether a novice or a power user, ParaSheet is ideal for all day-to-day financial and accounting tasks.



VARIODATA
Multi-User Database

Finally, an accessible multi-user flatfile database for NEXTSTEP has arrived! With VarioData's simple point & click interface, non-programmers can easily build custom databases for workgroup deployment.

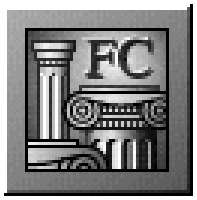


TASKMASTER
Project & Resource Management

TaskMaster provides a fast and intuitive project and resource management solution to managers, developers, and day-to-day NEXTSTEP users who want to effectively plan and track their ongoing projects.

WETPAINT
Painting & Image Manipulation

With an extensive array of bundled filters and tools, WetPaint is the ideal paint application for NEXTSTEP users who want to add dazzling graphical effects to their presentations, custom user interfaces, photographs and general desktop publishing documents.



FOUNDATION CLASSES
Object Library

For corporate developers building mission-critical, custom applications, our time-tested Foundation Classes are an invaluable addition to your arsenal of developer tools—helping to ensure on-time and on-budget deployment.
