

Magic 8 Ball 1.23
(c)1996 OneShot Software

OneShot Software disclaims any/all responsibility and is not liable in any way for any of the outcomes produced from this program. The user accepts full responsibility by installing and using this program. In other words: Don't base any of your decisions on this program! This program is intended for fun and should not be taken literally for any answers that it may give to the end user.

All rights to this software is the property of **OneShot Software**. The user is granted the right to use this program free of charge on his/her computer provided that he/she does not reproduce this software, and/or charge for this software in any way, shape, or form. **OneShot Software** solely reserves the right to give permission to those whom may reproduce and distribute this software program. Any redistribution or copying of our software is strictly prohibited without our written consent.

REGISTRATION:

Although this program is free for you, the end-user to use on your computer, we would like for you to register it and give us feedback (it's also a good way for us to track how our programs do). Registration entitles you to future upgrades and information about other programs offered by **OneShot Software** as well as support. To register this software, simply send your name, and email address along with the name of the software program you are registering and where you obtained it along with any bug reports and comments to our E-Mail address: **theking@horizon.hit.net**.

PROGRAM DESCRIPTION

Do you remember that 'ol black magic 8 ball that you could buy (and still can), that you needed to shake-up for it to "reveal answers" for you? Well now it has come into the computer age with Magic 8 Ball 1.23. All you need is a computer with Windows, a mouse, and some questions to ask it.

PROGRAM INSTALLATION

To install this program, unzip the program into a directory of your choice. Files included and needed are:

- 8BALL123.EXE (Actual program)
- 8BALL123.WRI (This file)
- DBTTIPS.VBX (v2.0 Needed for program execution)
- DBPUSH.VBX (v2.0 Needed for program execution)
- VBRUN300.DLL (Not included but can be found elsewhere on the net)
- FILE_ID.DIZ (Short description of program)

After the files are where you want them to be, double-click on the 8BALL123.EXE file

to begin using Magic 8 Ball 1.23. No files are written to INI files so uninstalling is a matter of deleting these files listed above.

HOW TO USE MAGIC 8 BALL 1.23

THE 3 COMMAND BUTTONS USED IN THE PROGRAM:

(See Also HELP ME From The Menu Within The Program)

EXIT BUTTON

Click on this button to exit out of the program and return to Windows.

REVEAL BUTTON

Click this button and Magic 8 Ball 1.23 will reveal to you the inner-most thoughts of the universe (yeah....right). Go ahead, ask Magic 8 Ball 1.23 any question (in YES or NO formats), that you need an answer to and see what it says.

ABOUT BUTTON

Click on this button to find out a little more about Magic 8 Ball 1.23.

WHO WE ARE: ONESHOT SOFTWARE

We strive to bring you, the customer, small, and sometimes useful (or entertaining), programs that you will be free to use with no charge whatsoever to us. Our only stipulation is that you register the name of the program that you are using with us so that we can monitor feedback. We do not allow the end-user to reproduce our software, nor do we allow the end-user to sell our **OneShot Software** to anyone in any format (no Shareware, bulk software packages, or CD Shareware, etc). If you find our programs useful, go ahead and use them on your computer, if not, take it off and forget that it ever existed. That's how we derive the name **OneShot** (try it at least once and use it or don't use it at all), either way we have given it "one shot." Whatever the outcome we want to thank you for trying and using our software and look forward to your feedback.

MISC NOTES

About the VBX's used in this program:

These freeware controls were developed by Dan Byström. For more information, contact him through his e-mail: "dan.bystrom@adb-partner.it-invest.se" or phone: +46 708 68 65 78 (**no support calls, please**). He would be happy to discuss development of customized VBX'es or OCX'es for you.

This software program, documentation, and all supporting graphics is copyrighted material (c) 1996 **OneShot Software** and may not be used, incorporated in other formats, nor copied without written consent from **OneShot Software**.
