

Itsagif

Read Me First

Itsagif is a simple program for converting BMP or WMF files into GIF(1) files that are suitable for the world wide web. The following files should be present in the itsagif folder:

- * Read Me First (README.TXT/README.WRI)
- * Setup/Installation Files (SETUP.EXE/_OSETUP.*)
- * Legal Information (LEGAL.TXT/LEGAL.WRI)
- * Manual (MANUAL.TXT/MANUAL.WRI)
- * Registration Form (REGIST.TXT/REGIST.WRI)
- * Itsagif Application (ITSAGIF.EXE)
- * Registration Information (REGINFO.TXT/REGINFO.WRI)
- * Register Application (REGISTER.EXE)
- * Register Application Helpfile (REGISTER.HLP)

Run SETUP.EXE from within Windows to install itsagif.

Itsagif requires win32s to operate under Windows 3.1 or 3.11.

Be sure to read the legal information. Read the short manual for tips on how to use the program. The itsagif web site is a good source for up-to-date information on itsagif.

The registration form may be filled out, printed, and sent to us to register itsagif. Read the Registration Information file for information about other registration options.

This collection of files may be freely redistributed as long as all files remain together. Itsagif and all accompanying files are copyright property of Pedagoguery Software, with the exception of the Register Application (REGISTER.EXE) and the Register Application Helpfile (REGISTER.HLP) which are the copyright property of Greg Kochaniak.

Without registration, itsagif expires after thirty days.

We at Pedagoguery Software welcome comments and feedback from our users. We may be reached via email at Pedagoguery@Applelink.Apple.com. We maintain a web page for itsagif at <http://www.cafe.net/peda/iag/>.

(1) The Graphics Interchange Format(C) is the Copyright property of CompuServeIncorporated. GIF(sm) is a service mark property of CompuServe Incorporated.
