Click on this icon to close all Grammar help

Click on this icon for launcher Position and Help

Click here for help on using this Help file.

Menu Choices

If you click on the rightmost button, the one with the question mark, a windows menu will pop up.   Click on the menu choice you want.   Click anywhere else on the screen to close the menu.

Positions. The first six choices locate the launcher bar in the position most convenient for you.   The position will be stored when you exit, so the launcher bar will load in that position the next time you run the program.
Each of the six choices locates the bar in the position specified: Upper Left, Upper Center, Upper Right, Lower Left, Lower Center, and Lower Right.

Help Boxes. As you pass the mouse pointer over each button on the launcher bar, a little box pops up to tell you what the button does.   The two menu choices turn this feature **on** and **off.**

Help. Click on this choice and you will get these instructions on how to use the launcher bar. You can also get these instructions by pressing the **F1** key.

Order Form. Click on this choice for the **Grammar Slammer** order form.

Other Information. Click on this menu choice for some information on other language and educational programs by the author of **Grammar Slammer**.

About. Click on this menu choice for some information on **Grammar Slammer**.

Other Information--

Try these other programs by the same author...

VERBAL VANQUISH
Vanquish Your Anguish
on the
Verbal Portion of the SAT and similar tests

This program emphasizes STRATEGY to do your best on the Verbal portion of the SAT, ACT, GRE, LSAT, Regents, and similar entrance exams.   No boring drill, but real skills to help you improve your score.   Students tutored by the author using these techniques have averaged a 70 point increase on the Verbal Portion of the SAT alone!   You can't afford not to have it! Easy to use, for all IBM-compatible computers with 512K RAM and 700K disk storage. Any monitor type.   Upgraded to include the new SAT-I and PSAT.

and

MATH VANQUISH
Vanquish Your Anguish
on the
Math Portion of the SAT and similar tests

The companion program to VERBAL VANQUISH, MATH VANQUISH gives you what you need to do your best on the Math portion of the SAT, ACT, GRE, and similar exams.   Once again, the emphasis is on strategy.   Students tutored using similar strategies have increased their scores an average of 80 points on the Math Portion of the SAT.   (Together with the Verbal lessons, that is an average increase of 150 points per SAT!)   Same computer requirements as above except that an EGA or higher monitor is required.   Updated for the new SAT-I and PSAT.   (Ask for CGA and mono version of program, if you need them).

SATCON
The SAT Score Conversion Program
Have You Been Converted?

This Windows program converts the old (1941-1994) SAT and PSAT scores to the new "recentered" SAT-I scores and vice versa. Easy to use. Available as Bannerware from many online services, bulletin boards, and shareware dealers. Also available from author.

WINALTER
Alter Date, Time, and Attributes of Files
Without Leaving Windows

Programmers and all those who need to keep records of computer files know that often there is no easy way to change the date, time, or attributes of files without exiting Windows. **WinAlter** makes this job a snap with a quick, easy Windows interface. You can even "drag and drop" files from File Manager or Windows Explorer. Available as Shareware from many online services, bulletin boards, and shareware dealers. Also available from author. Windows® 3.0 or higher required. All programs listed here work fine on Windows 95.

How to Use this Help File

This help file works like any other Windows® Help file.

Buttons. Click on the buttons (or press the underlined letter key) for various helps.   The "Contents" button takes you to the opening window of the help file.   The "Back" button takes you to the window you were reading previous to the current help window.   The "Search" button will help you find particular topics to find help about.   The "History" button shows you the various help windows you have read since you called up the help file.   The Arrow buttons, or Browse buttons, take you to the next (>>) or previous (<<) window.

Menu Line. Click on "File" (or press Alt-F) to Copy or Print the current window or to **Exit** this Help File. The "Open" choice will start another file or program.
Click on "Edit" to add your own comments to a help file or copy the current window to the Windows® Clipboard. Click on the picture of a small paper clip to make the comment appear.
Click on "Bookmark" to mark the window you are reading so you can find it quickly next time, or to go to that mark you made.
Click on "Help" (or press Alt- H) for more information on how to use the Help file.   The "Always on Top" option here is best left checked.   Click to un-check, and other programs (including the launcher bar) may show through the help file.   If you switch to another Help file and the launcher bar shows through, click on the "Always on Top" option.   The "About" option gives you some information about this help file.

Underlining. Click on any underlined portion to go to more information on that subject.
