These files are supposed to reside in the windows system directory. Other products may have installed these files in the windows directory or elsewhere. Scan all directories for these files and eliminate any occurrence of these files outside of the \WINDOWS\SYSTEM directory. Make sure the files in the \WINDOWS\SYSTEM directory are the ones shipped with Writer's Cramp LE or NEWER. Visual Basic file formats were changed between Version 1.0, Version 2.0 and Version 3.0. This is NOT a problem with Writer's Cramp LE, but is an incompatibility between Visual Basic 1.0, Visual Basic 2.0 and Visual Basic 3.0 VBX files.
