Copyright © 1994-1996 JRE Enterprises, All Rights Reserved

Writer's Cramp LE is an inexpensive and simple word processor with many of the same features found in major word processors. Unlike its brother, Writer's Cramp, Writer's Cramp LE does **not** use a database for storing letters. This is the major difference between Writer's Cramp LE and Writer's Cramp. Requires Windows 3.1+ or Windows 95.

Writer's Cramp LE is a shareware program. This evaluation version includes all features of the program, and is not crippled in any way. You may use it for up to 30 days, without charge. If you like the program, and wish to continue its use after this evaluation period, you are required to pay for the program (see REGISTER.WRI for more details). Any fee you may have paid to others (disk vendors, dealers, etc.) to obtain this evaluation version was a fee for their copying and distribution services, rather than a payment for continued use of the program.

Also available from JRE Enterprises are programs: JRE Exit, JRE Home Inventory, My Life, Win Change, Win Multiple Configurations, and Writer's Cramp. **JRE Home Inventory** is the Windows Home Inventory program that keeps track of all your household items for insurance purposes. **JRE Exit** is a freeware utility that provides four different ways to exit Windows. **My Life** is the definitive diary, word processor, scrapbook, and multi-media scrapbook available for Windows. **Win Change** is the only utility that allows you to make global changes to text strings in GRP, INI, PIF and other types of files. **Win Multiple Configurations** is the only utility that allows up to 100 different Windows configurations to be saved and restored! **Writer's Cramp** is a simple, small, inexpensive word processor that uses a database for storing letters. These programs can be found on CompuServe (WINSHARE forum) and America Online (Windows software) with a keyword of JRE.
