3. Change the information, and save.

Delete Entry

1. Select entry to be deleted.
2. Select "Delete" from the "File" pull down menu.
3. Confirm that you really want to delete entry.

Com Port

It is necessary to have the com port set to the correct setting. It must be set to the same port as your modem. If you don't know the correct setting, you may have to use the trial and error method to find it.

Dial

Select entry to dial or type in the phone number to dial and select the "Dial" push-button.
