THREE REGISTERED VERSIONS

There are several different registered packages available at different price levels, depending on what you need or want. There are three different Versions of the Program.

All registered versions include the 1200 location Extended Location Database. This contains mainly U.S. and Canadian Locations, but has some other locations as well.

In the description of each version I show what will be provided for the registration. Each version comes with free technical support for a limited period of time (stated below).
This is the stated minimum period. After that time I will do my best to provide any additional help that you may need.

Technical support is provided by phone and by writing. I can also be reached via several BBS systems. See the Support section for details.

LITE VERSION

A LITE Version which is basically this version. This is mainly provided for beginners, and those who don't need the advantages of the more advanced versions. The LITE version also works on a Two 360k 5-1/4" floppy disk system. If you send $44.95 you will get this version. This registration level only provides the disks, No printed manual is provided.

Registering this Package entitles you to access to technical support for 90 days. Earlier shareware versions included a Progressed Report and midpoints which were taken out due to lack of disk space. In their place are better graphics printing, and true Astrological
Glyphs. If you want these features you will want the DELUXE version Below.

DELUXE VERSION.

A DELUXE Version Which offers all the features that The Lite Version does, but adds more Reports and adds other Features and supports more printers. This version costs $59.95 and Includes a Printed Manual. Most users will find this version best for their needs. Registering this Package entitles you to access to technical support for 90 days.

FEATURES OF DELUXE VERSION IN ADDITION TO LITE FEATURES.
* Progressions Report. (Secondary, Tertiary and Minor)
* Solar and Lunar Returns, (can be progressed as well).
* Composite Report (to analyze a relationship).
* Relocations Report.
* Midpoints
* Click on Glyphs and see interpretive text.
* Display of Planet Locations.
* Customize Graphs with your name and address.

In addition to these features, for an additional $25, I will send you the Text Source files used to create ASTRO's Text interpretations. These are in ASCII. You can edit these files with any Word Processing program that accepts plain text or ASCII. This package also includesa new Windows Based Text Modification toolkit called TBT For Windows or "Text Builder Toolkit" which allows you to modify the text, astrological help and report formatting. This builds these files into ASTRO's Proprietary Indexed Compressed format.

As a special Offer, You can order both the DELUXE Program and the Text Source and Compiler's Package for $79.95 a savings of $5.

PROFESSIONAL VERSION

The third version is a more professional version. This version goes far beyond the features of the DELUXE PROGRAM, in that all the reports can be customized.

This version comes with a Printed manual and is packaged in two packages. One which contains the Program itself with the necessary stuff. The second also contains all the stuff to
Customize the text and the reports. The Professional version has features designed for the professional or serious user who is going to use the program a lot.

FEATURES PROFESSIONAL VERSION IN ADDITION TO DELUXE VERSION.

* You can take any report and Progress it, Relocate it or both at the same time.
* Change chart options on a chart by chart basis.
* Arabic Parts Report.
* Fixed Stars Report.
* Heliocentric Positions.
* Transits of Composite Chart (to analyze events of relationship).
* Problem Report. Checks chart against database of known problems.
* Cover Pages and Comment files can be created for any report with decorative image and art
* Program can automatically convert a report and open your favorite editor and open your file.
* Convert graphic charts to graphic files (.PCX, .TIF, .EPS, .WMF, .GIF).
* Search for text in reports.
* Visual Rectification. Interactively change the house cusps.
* Search for charts in file list.
* User file list. You can maintain this list by copying and pasting.
* Save to comma delimited files for databases and spreadsheets.
* Click on Text Paragraphs and modify and edit them within the text viewer.

The Professional Program prices at $109.95 for the Basic Professional Package and $129.95 for the entire package including the Text Source Files package which is required to modify text or reports. This package also includes 120 days access to technical support by telephone or other means.

Optional 33,000 location database

The Optional 33,000 location database contains approximately 32,000 U.S. Locations in addition to the ones in the program. This contains only basic time zone information and no time changes. This costs and additional $79.95.
