Introduction

REMINDER is a date and appointment reminder program.

REMINDER is great to manage birthdays or events that only happen once. Events may stretch over several days. Once-only events will be deleted automatically after expiration. The days left up to the event are calculated in days, taking leap years into account.

A ToDo-List is kept to serve as an electronic Notebook. You can enter all your activities yet to do there, and delete them as you have completed them.

You have to read the **license agreement** at the end of this text.

Installation

If you are already using REMINDER, please note: The data file format has changed. Version 3.1 will read any older version's data file. The 3.1 data files can not be read by older versions. If you are not sure you want to upgrade, please make a copy of your current calendar file.

REMINDER consists of the program file REMINDER.EXE and a library BWCC.DLL. REMINDER.WRI is this text. ORDER.WRI is the order form for the license to use REMINDER for more than 30 days.

REMINDER.EXE is the Windows program.
Just copy it anywhere to your hard disk.

BWCC.DLL is a library providing REMINDER with all those nice buttons and message boxes. It should reside in the WINDOWS\SYSTEM directory. You may already have this file. It is used by Borland programming languages.

The place REMINDER likes best is your Windows "Autostart" Group.

This way REMINDER will always pop up when you start Windows and you will never forget an important date.

Just select the group and use "File/New" to add REMINDER to this group.

Of course, you may double-click on the "REMINDER" icon to view/edit your reminders.

When you run REMINDER for the first time, it will create the file REMINDER.REM. If you do not choose a different name in the setup dialog, this will be your calendar file. You may thus leave it this way. "**Days ahead**" selects how many days in advance you will be informed of upcoming events.

That is all that is important. Just play around a bit.

And: Check out the "About" button!

Have much fun with REMINDER!

LICENSE AGREEMENT

I DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL I BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES WHATSOEVER ARISING OUT OF USE OF THE PROGRAM OR YOUR RELATIONSHIP WITH ME.

If you do not agree to these terms, you may not use "Reminder".

To use "Reminder" for more than 30 days, you have to buy a license. Otherwise, you have to stop using "Reminder". With your license, you will receive a code number which will remove the occasional license reminder dialog.

Please order the REMINDER-License with the ORDER.WRI form order via CompuServe GO SWREG and choose program # 7443.

Toll-free number

If you are a U.S. resident, you can order with MC, VISA, Amex, or Discover from Public (software) Library by calling 800-2424-PsL or 713-524-6394 or by FAX to 713-524-6398 or by CIS email to 71355,470. You can also mail credit card orders to PsL at P.O. Box 35705, Houston, TX 77235-5705, USA. Please state "Windows Reminder" product No. 14208. The 800- number is for ORDERS ONLY. Use the other numbers for other enquiries.

PsL does only take registrations, they do not know anything about REMINDER. Please contact me for support.

Honestly, I prefer that you order the license directly from me, as I have to pay PsL \$5 for this service.

This program may be distributed freely. The license code may not. It is bound to your name.

END OF LICENSE AGREEMENT
