

Hostage Hell

First of all, I need to say that you cannot get all of the hostages in this level. Why? Because it is Hostage Hell and Hell is as Hell does, my momma always said.

Secondly, if you want to see the hostages in the escape tunnel, you should run this level as one of the levels of descent. (i.e. rename it to level01.rdl)

Lastly, this level can be played as normal or anarchy.

That's it. I think it is a beautiful and deadly level, and the best I have ever seen.... well maybe...
