TEXT1,C,79	TES
@6	6
In tutorial 1, you examined the 3 records that come in the Master File	0
as Test Data. They are for trucks with these license numbers:	0
STW366, UTR399, WRX332.	0
SERVICE PLUS [TM] relates activities to master records. In this case,	0
those activities are service calls being related to trucks. But you	0
could just as easily relate maintenance and service to hotel rooms,	0
where each room received one master record; or plumbing activities	0
to mechanics. The possibilities are endless! The phrase 'Service	0
Call' that appears in the activity file can be changed to anything	0
you want back at the custom options menu.	0
The Test Data contains 21 activities related to those 3 trucks.	0
We will now look at a few of those records.	0
